NFL enters into Nano Liquid Urea production

The Government of India-owned National Fertilisers Limited (NFL) recently started production of Nano Liquid Urea. Developed and patented by the Indian Farmers Fertiliser Cooperative Limited (IFFCO), Nano Urea is a groundbreaking, nanotechnology-based agricultural input that supplies nitrogen to plants. Containing 4% total nitrogen, it is highly efficient in nutrient absorption, making it a revolutionary solution for improving plant growth and reducing nitrogen losses. This innovative product offers a more effective way of providing essential nutrients to crops compared to traditional urea.

Top 10 Current Affairs Questions of Today - November 27, 2024

[Image Source: BBC News]

comment below your score, considering each question has 1 mark only. If you scored 8 to 10, congratulations! You are one step closer to selection. If you have scored 5 to 8 marks, then you are doing well, keep it up. If you have scored less than 5 marks then you need to work a little harder on this subject. But don't worry, we are here to help you master the subject.

Keep trying! We will meet again with another set of questions in daily current affairs quiz.
