## Lowest water level in Paraguay River

The fifth Largest river in South America, Paraguay River, recorded the lowest water levels in more than a century. The decline in water levels is due to a powerful drought in the Amazon Rainforest. The Paraguay River runs through Brazil, Bolivia, Paraguay and Argentina and covers a course of approximately 1584 miles. The world's largest tropical wetland Pantanal is located over the Paraguay basin.

## Yellow Food Dye can make skin of mice transparent

Researchers have recently discovered that Common Yellow food dye also known as Tartrazine can make skin transparent. It is a synthetic food colourant classified as an azo dye and is lemon yellow in colour and water soluble. Scientists discovered that when applied, Tartrazine absorbs certain wavelengths of light thus enabling them to see blood vessels, internal organs and muscle contractions in real time.
