**Reading Comprehension for SSC CPO 2024 - Tips and Practice Sets****Q:1 Read the following passage and answer the questions that follow.**

With the globalization of the world economy, there has been a concomitant rise in the number of companies that operate globally. Though international business as a concept has been around since the time of the East India Company and continued into the early decades of the 20th century, there was a lull in the international expansion of companies because of the Two World Wars. After that, there was a hesitant move towards internationalizing the operations of multinational companies.

What really provided a fillip to the global expansion of companies was the Chicago School of Economic Thought propelled by the legendary economist, Milton Friedman, which championed neoliberal globalization. This \_\_\_\_\_, (1) which started in the early 1970s gradually, became a major force to reckon with in the 1980s and became the norm in the 1990s. The result of all this was the frenzied expansion of global companies across the world.

Thus, international businesses grew in scope and size to the point where at the moment; the global economy is \_\_\_\_\_ (2) by multinationals from all countries in the world. What was primarily a phenomenon of western corporations has now expanded to include companies from the East (from countries like India and China).

Above all, international businesses have to ensure that they blend the global outlook and the local adaptation resulting in a "Glocal" phenomenon wherein they would have to think global and act locally. Further, international businesses need to ensure that they do not fall afoul of local laws and at the same time repatriate profits back to their home countries. Apart from this, the questions of employability and employment conditions that dictate the operations of global businesses have to be taken into consideration as well.

**Which of the following statement(s) is/are TRUE in the context of the give passage?**
