- In Tier 1 exam every candidate will be given 2 marks for each answer.
- Moreover, there will be a negative marking of 0.50 marks for every wrong answer.
- Further, for Tier 2 exam each question will be of 3 marks.
- Also, there will be a negative marking of 1 marks for every wrong answer in Tier 2 examination but only in Section 1, Section 2 and Module 1 of Section 3.

Shall we now proceed forward and take a look at the marks normalization for the SSC CHSL 2024 examination?

SSC CHSL 2024 Marks Normalization

Let's begin by defining normalisation markings as they actually are. After all, it's a statistical method that takes into consideration any differences in the complexity of the question papers between different exam shifts. It is unfair to compare scores directly between shifts because of the variability in question levels. Normalisation, which equalises the scores and permits a more accurate assessment of candidates, thereby resolves this problem.

Thus, back in 2019, the Staff Selection Commission published the formula in Notice No.1-1/2018-P&P-I dated 07-02-2019, which has been followed ever since. Subsequently, these normalized scores are utilized to determine the final merit and cut-off marks.
