Moreover, they are presented within Parts I, II, and III of Paper 1. Additionally, there will be a provision for negative marking. **0.25 mark will be deducted for each incorrect answer** in both Papers 1 and 2.

SSC CPO 2024 Marks Normalization

How about we begin with understanding what marks normalization is? Well, it is a statistical method that accounts for any disparities in the difficulty levels of question papers across multiple shifts of the same exam. Since different shifts can have varying levels of complexity in their questions, direct score comparison might not be equitable. Thus, normalization addresses this issue by equalizing the scores, enabling a more just evaluation of candidates.
