Series Questions - 60 Difficulty Wise MCQs with Solutions

In today's segment, we will be focusing on Series, a significant topic of Logical Reasoning section that holds substantial weightage in the SSC exams. Almost 4 - 6 questions surely come from this chapter in almost all SSC exams. Series questions are an integral part of the reasoning section and demand a strong grasp of pattern recognition and logical thinking.

Here, we present 60 carefully curated Series questions, each designed to cater to different difficulty levels, simulating the diversity encountered in the actual SSC exam. It is recommended to approach these questions systematically, attempting them one by one, much like you would during the actual exam. Difficulty levels are categorised into Easy, Moderate and Hard. By tackling these questions, you will not only enhance your preparation but also develop a deeper understanding of concepts. You can also download Series questions and answers PDF by clicking the Download PDF button on the top of this page.

Order and Ranking Questions for SSC - Easy Level

Q:1 Amrith is older than Manish, Vishnu is older than Manish but younger than Amrith. Dhivakar is younger than Rakesh and Manish. Manish is older than Rakesh. Who is the eldest?

1.Manish

2.Rakesh

3.Vishnu

4.Amrith

Q:2 10 people A, B, C, D, E, F, G, H, I, J stand in a line to buy some chocolates. B, D and E buy chocolates as multiples of 2 respectively (starting from 2). A, C, and F buy chocolates as multiples of 4 respectively (starting from 4). H buys 4 chocolates more than F. I and J buy chocolates as multiples of 5 respectively (starting from 5). G buys 3 chocolates less than C. Who buys chocolates that is half of the number of chocolates bought by the person who has the highest number of chocolates?

1.A

2.C

3.D

4.I

Q:3 A's taller than B but not taller than C. C and D are of the same height. E is taller than B but shorter than A. Among all girls who is the shortest?

1.C

2.D

3.E

4.B

Q:4 Study the given statement and answer the appropriate question.
Statements:
I. V is not shorter than A.

II. D is shorter than V.

III. A is shorter than D.

1.D is shorter than A

2.A is shorter than V and D

3.A is taller than V

4.D is shorter than A and V

Q:5 In a class there are 31 students. Among them, Gujarat and Haryana are ranked 7th and 11th respectively from the top in the list of literacy rate. What will be their respective ranks from the bottom in the list?

1.20th and 24th

2.24th and 20th

3.25th and 21st

4.26th and 22nd

Q:6 In a row of 18 children, Raju is seventh from the left. If Moti exchanges his positions with Raju, Raju will be fifteenth from the left. What is Moti's present position from the right?

1.Eleventh

2.Fourth

3.Eighth

4.Twelfth

Q:7 There are X students in a class. Out of which Ravi's position is 10th from the start and 21st from the end. Find the value of X.

Q:1 Six girls D, E, F, G, H and J are of different heights and weights.The tallest girl is not the heaviest and the shortest girl is not the lightest. Only two people are taller than D and two people are lighter than G. J is the heaviest person. F is taller than only E and lighter than only J. J is taller than H. E is lighter than H. Who are the lightest and the tallest girls?

1.D, G

2.D, E

3.G, F

4.H, J

Q:2 Govind is shorter than Ashish but taller than Kamal. Naren is shorter than Kamal. Jayanth is taller than Naren. Ashish is taller than Jayanth. Who among them is the shortest?

1.Ashish

2.Govind

3.Kamal

4.Naren

Q:3 Six persons are getting different incomes. A is getting more than only C. Two person's income is between B and D. E is getting more than D and less than B. Highest income of the person is Rs 40000. E's income is Rs 30000. F is getting less than E.
What may be the income of F?

1.Rs 45000

2.Rs 25000

3.Rs 32000

4.Rs 39000

Q:4 Six persons are getting different incomes. A is getting more than only C. Two person's income is in between B and D. E is getting more than D and less than B. Highest income of the person is Rs 40000. E's income is Rs 30000. F is getting less than E.
Who among the following is the person who gets the highest income?

1.F

2.E

3.B

4.D

Q:5 In a row where all are facing north, Priya is 15th from the left end and Garima is 19th from the right end. They interchange their positions, and Ram who sits 24th from the left end sits at the 5th place to the left of Priya's new position.
How many persons were there in the row?

1.45

2.46

3.47

4.48

Q:6 In a row of girls, Nithya and Suganya occupy a ninth place from the right end and tenth place from the left end, respectively. If they interchange their places, then Nithya and Suganya occupy the seventeenth place from the right and an eighteenth place from the left respectively. How many girls are there in the row?

1.22

2.24

3.26

4.28

Q:7 In a queue of students facing north, Kirti and Kiara are standing at 13th and 5th position from the left and right end respectively. If another student Kavya, who is 16th from the left end is exactly in between Kirti and Kiara then find the position of Kirti from the right end?

1.11th

2.12th

3.9th

4.10th

Q:8 In a row, Smith was standing 16th position from the left. Bipul was standing 18th position to the right side. Aman was standing 11th position to the left of sumit. And 3rd position to the right of Bipul. Then, how many number of the boys was standing in the row?
1.38

2.41

3.44

4.46

Q:9 In a race, A is 9th from the last. B's place is eighth from the first. C is in between the two. What could be the minimum number of boys that took part in the race?

1.8

2.12

3.10

4.14

Q:10 For a trophy, 16 teams participate, number 1-16 according to their rankings. In the qualifier matches, the teams face their immediate next lower ranked team e.g. team 1 plays team -2 team -3 plays team -4 and so on. It has been observed that the lower-ranked team always wins. Which two teams might play a semi-final match?

1.Team-12 and Team-16

2.Team-7 and Team-8

3.Team-2 and Team-4

4.Team-8 and Team-16

Q:11 Six friends A, B, C, D, E, and F play a card game. After the game finishes, everyone gets rank. A gets higher rank than five others. F gets the lowest rank. D gets higher rank than E but lower than B. C gets lower rank than B and E. How many persons are ranked between B and C?

1.1

2.2

3.3

4.4

Q:12 There are 25 students in a class and all of them are sitting in a row to do yoga. Meena is 11th from the top and Sneha is 6th from the bottom. Two students are sitting between Ananya and Reena. What is the position of Reena from the top?

1.12th

3.Cannot be determined

4.16th

Order and Ranking Questions for SSC - Hard Level

Q:1 There are six tanks labeled as A, B, C, D, E and F filled with different levels of water. B has more water than only two tanks. C has lesser water then only one tank. D has more water than B but less than F. Which of the following tanks has the lowest level of water?

1.F

2.E

3.Either A or E

4.A

Q:2 Five phones H, M, R, T and V, are kept one above the other (not necessarily in the same order). The number of phones above T is same as the number of phones below V. R is just above H. V is at the bottom. There are two phones between M and V. Which of the following phones are above R?
1.M and T

2.R and T

3.M and V

4.M and H

Q:3 There are six friends in a class. They were arranged as per their heights where, it was found that H was shorter than only two persons. K was not the tallest person among them. The one, who was 12 years old was the second shortest. M was taller than L but shorter than H. L and K were not the shortest persons among them. P was taller than R. Who among the following is the shortest among them and what can be the possible age of that person?

1.R, 9 years

2.P, 10 years

3.L, 11 Years

4.H, 8 Years

Series Questions - 60 Difficulty Wise MCQs with Solutions

Q:4 There are six persons D, K, M, U, R and L. They are of different heights. U is shorter than only L. K is taller than D and R. D is not the shortest person. M is taller than D but shorter than K. Who among the following persons is the shortest?

1.R

2.D

3.K

4.Can't be determined

Q:5 In a queue of students facing north, Ayesha and Anisha are standing at 10th and 8th position from the left and right end respectively. If another student Ariva who is 12th from the left end is exactly in between Ayesha and Anisha then find the position of Ayesha from the right end?

1.10th

2.12th

3.15th

4.9th

Q:6 There are 33 girls in a class and all of them are sitting in a line to exercise. Priya is 12th from the top and Varsha is 5th from the bottom. Four students are sitting between Riya and Ritu. What is the position of Riya from the top?

1.12th

2.16th

3.13th

4.Cannot be determined.

Q:7 In a class of 57 students the ratio of boys and girls is 2 : 1. Siya ranks 18th among all the students from the top and 15th among girls from the bottom. How many boys are there below Siya?

1.24

2.14

3.19

4.28

Q:8 Raman ranked 15th from the top and 25th from the bottom among those students who qualified for the examination. Ten students did not appear for the examination and five students failed it. How many students were there in the class?

Series Questions - 60 Difficulty Wise MCQs with Solutions

1.50

2.55

3.54

4.64

Q:9 Five people are standing in a ticket booking line. A, C and D are standing together, D is between A and C. A is immediately behind B and E is immediately behind C. Who is standing second last in the line?

1.C

2.E

3.D

4.A

Q:10 There are six persons Arhan, Amit, Aarti, Avinash, Asim and Aman, who got different ranks in an exam. Asim got the best rank among them all while Aarti was not the one who got the poorest rank. Arhan ranked just below Asim. There are three persons between Arhan and Amit. Aman ranks better than Aarti but poorer than Avinash.
How many persons are ranked between Arhan and Aarti?

1.one

2.two

3.three

4.four

Q:11 Hitesh, Sunny, Vicky, Nitin and Bharat are arranged in ascending order of the height from the top. Hitesh is at third place. Bharat is between Nitin and Hitesh while Nitin is not at the bottom. Who has the maximum height among them?

1.Hitesh

2.Sunny

3. Vicky

4.Nitin

Q:12 Five girls took part in a race. Rajni finished before Mahika but after Garima. Ashmita finished before Sanchali but after Mahika. Who came second in the race?
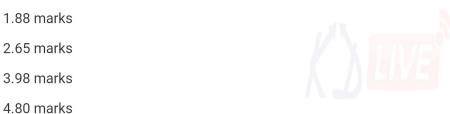

1.Sanchali

2.Mahika

3.Rajni

4.Garima

Order and Ranking Questions for Bank - Easy Level

Direction (1 to 2): Read the given passages carefully and answer the following questions.
Six students namely P, Q, R, S, T, and U are in a class who appeared for a test. All of them got different marks. Q got more marks than only two persons. R got more marks than P but less than U, who doesn't get the highest marks.T got more marks than Q and S. U got fewer marks than S. The one who gets the second-highest marks got 88 marks.

Q:1 If Q got 66 marks then what will be the possible marks that U obtained in the test?

1.88 marks

2.65 marks

3.98 marks

4.80 marks

5.None of these

Q:2 Who got the second-lowest marks?

1.P

2.U

3.R

4.S

5.T

Direction (3 to 4): Read the given passages carefully and answer the following questions.
There are six towers of different heights from A to F. Tower C is taller than only two towers. Tower A is taller than both tower D and tower E but not the tallest. Tower F is not the tallest. Tower D is taller than tower C.

Q:3 If tower E is the shortest and tower F is 150m and tower D is 175m high then what is the possible height of tower C?

1.160m

2.178m

Series Questions - 60 Difficulty Wise MCQs with Solutions

3.148m

4.145m

5.None of these

Q:4 Which tower is the tallest?

1.E

2.C

3.B

4.A

Direction (5 to 7): Read the given passages carefully and answer the following questions.
Amongst five friends, each has a different weight. Anika weighs more than Alka but less than Anjali. Anjali's weight is 70 kg. Anamika weighs less than only Anshika. The one who weighs the minimum is 65 kg, and the one who weighs the highest is 87 kg.

Q:5 What will be the sum of Anjali's weight and Anika's weight?

1.135 kg

2.157 kg

3.150 kg

4.153 kg

5.None of these

Q:6 What can be the possible results of the addition of the lowest person's weight and the second-highest person's weight?

1.130 kg

2.137 kg

3.135 kg

4.134

5.None of these

Q:7 Who weighs the second lowest?

1.Anika

2.Alka

3.Anamika

4.Cannot be determined

5.None of these

Direction (8 to 9): Read the given passages carefully and answer the following questions.
There are five students who get different marks in a class. N gets more than M who gets less than P. Q gets just more than R and just less than N. P doesn't get the highest marks. R doesn't get the lowest marks.

Q:8 Who gets lowest marks?

1.Q

2.R

3.M

4.P

5.N

Q:9 Who gets highest marks?

1.P

2.Q

3.R

4.M

5.N

Direction (10 to 11): Read the given passages carefully and answer the following questions.
In a pack of six ropes, Rope 4 is longer than Rope 2 but not as long as Rope 3. Rope 5 is shorter than Rope 3 but longer than Rope 6. Rope 2 is shorter than Rope 6 but longer than Rope 1. Rope 4 is not longer than Rope 5.

Q:10 Which Rope is the shortest among all the ropes?

1.Rope 3

2.Rope 4

3.Rope 1

4.Rope 6

5.Rope 2

Q:11 If Rope 2 is 10 m long, what can be the length of rope 6?

1.5m

2.6m

3.7m

4.9m

5.12m

Directions (12 to 14): Read the following information and answer the following questions below.

Bindu is standing exactly in the middle of a line of girls. Asha is 6th to the left of Bindu and Ritu is 16th to Bindu's right.

Q:12 What is Bindu's position in the line?

1.11

2.14

3.16

4.17

5. None of these

Q:13 What should be the minimum number of girls in the line?

1.22

2.28

3.33

4.32

5. None of these

Q:14 What is Asha's position in the line?

1.22

2.12

3.18

4.11

5. None of these

Order and Ranking Questions for Bank - Moderate Level

Direction (1 to 3): Read the given passages carefully and answer the following questions.
Six persons namely Arun, Deepak, Kunal, Nayyar, Kavi, and Tina are of different heights. The tallest person's height is 175 cm. Nayyar is taller than only two persons. Deepak is not the tallest but he is taller than Kunal and Kavi. Tina's height is 160 cm and she is shorter than Kunal but taller than Kavi. Kunal is taller than Kavi.

Q:1 How many persons are taller than Tina?

1.One

2.Two

3.Three

4.Four

5.Five

Q:2 What can be the possible height of Kunal if Nayyar's height is 163 cm?

1.159 cm

2.160 cm

3.162 cm

4.165 cm

5.None of these

Q:3 Who is the second tallest person?

1.Arun

2.Kavi

3.Deepak

4.Tina

5.None of these

Series Questions - 60 Difficulty Wise MCQs with Solutions

Direction (4 to 5): Read the given passages carefully and answer the following questions.
There are seven students who got different marks in a class and are standing in descending order as per their marks from left to right. The student with the lowest marks is standing to the right of the student with the highest marks. A got more marks than only two students. B and H don't have the highest marks. E got more marks than G and fewer marks than H. A's marks are 150. C is standing 5th to the left of D. B is an immediate neighbor of H and E.

Q:4 Who among the following may have 145 marks?

1.C

2.B

3.E

4.G

5.H

Q:5 Who among the following is standing 3rd to the right of B?

1.C

2.D

3.A

4.H

5.G

Direction (6 to 8): Read the given passages carefully and answer the following questions.
Eight friends - Alex, Ben, Chandler, David, Emma, Fanny, Gunther, and Harmonica, go for a fitness test where their heights are also measured. David is taller than Chandler. Fanny is taller than three people while Harmonica is taller than two people. Gunther is shorter than seven of them. Alex is shorter than only one person but not Emma. Chandler is taller than Harmonica, who is shorter than Fanny. David is not the tallest person in the group.

Q:6 How many people are shorter than Ben but taller than David?

1.One

2.Two

3.Three

4.More than 3

5.None

Q:7 How many people are taller than Emma?

1.Two

2.Three

3.Four

4.Five

5.More than five

Q:8 Who among the following is the tallest person in the group?

1.Harmonica

2.Alex

3.Ben

4.Chandler

5.Fanny

Direction (9 to 10): Read the given passages carefully and answer the following questions.
Kirti is elder than Uma. Payal's age is equal to Asha's age. Neha is younger than Mona, whose age is equal to Asha's age. Uma is elder than Payal.

Q:9 If Mona's age is 32, then what would be the possible age of Kirti?

1.20 years

2.40 years

3.35 years

4.Can't be determined

5.None of these

Q:10 Who among the following is the eldest one?

1.Asha

2.Uma

3.Neha

4.Payal

5. None of these

Order and Ranking Questions for Bank - Hard Level

Direction (1 to 5): Read the given passages carefully and answer the following questions.

Nine persons work in an organization in different departments- Technical, HR, and Content. Each of them gets a different monthly salary. All of them get an award either the Leadership Award or Mentorship Award at an award ceremony in the organization. The salary range of the persons lies between 25k to 95k. P and V work in different departments but get the same award and P's salary is 18k more than V's. T's salary is square of a number but less than 45k and T gets a leadership award. S works with only W and X but not in the technical department. V's Salary is three times T's salary. U works in the content department and gets a mentorship award. S's salary is a square of an odd number and does not get the same award as T. W gets 13k less salary than S. P neither works in the same department as U nor gets the same award. Except for the Technical department, all other departments get only one mentorship award. Q gets 4k salary more than X and both get
different awards. P's salary is 1.5 times of R and he works in the same department as Q. U gets 14k less than W but 18k more than X. Q neither works with T and X nor gets the same award as them. T does not work in the Technical department.

Q:1 Who among the following work with T in the same department?

1.R, V

2.W, P

3.Q, U

4.U, V

5.None of these

Q:2 What is the difference between the salary of V and Q?

1.30k

Series Questions - 60 Difficulty Wise MCQs with Solutions

2.35k

3.25k

4.55k

5.None of these

Q:3 How many persons get a lower salary than U?

1.One

2.Two

3.Three

4.Four

5.Five

Q:4 Which of the combination is true about R?

1.81k – Content – Leadership Award
2.62k – Technical – Leadership Award
3.75k – HR – Mentorship Award
4.62k – Technical – Mentorship Award
5.None is true

Q:5 What is the total salary of the technical department team?

1.140k

2.195k

3.160k

4.150k

5.None of these

Direction (6 to 9): Read the given passages carefully and answer the following questions.

Eight persons namely Roy, Joy, Moni, Dolly, Kim, Dan, Tim and Bon got different marks in an examination. Bon gets more marks than four of them. Dan didn't get the lowest marks. Bon gets more marks than Dan. Moni gets more marks than Roy but less than Joy. Dolly didn't get more marks than Tim. Kim got more marks than Dan but less than Tim. Bon got 88 marks which are 20 more than the lowest marks. Roy got more marks than Tim.

Q:6 If the top scorer's score was revised to be less than Kim but more than Dan then who will be the second highest scorer in the new arrangement?

1.Moni

2.Tim

3.Roy

4.Kim

5.Dan

Q:7 If top 3 high scorers were awarded with chocolates and bottom four scorers were awarded with candy then who didn't get either candy or chocolate?

1.Moni

2.Bon

3.Tim

4.Kim

5.Can't be determined

Q:8 If Kim scored 72 marks then what could be the possible score of Dan?

1.70

2.73

3.65

4.60

Series Questions - 60 Difficulty Wise MCQs with Solutions

9 persons A, B, C, D, E, F, G, H, and I have brought a different number of cars. D has more cars than F. E has just more number of cars than the one who has more cars than three persons. B has less number of cars than G and H. H has not had the highest number of cars. The number of persons who has more cars than C is the same as those who have fewer numbers of cars than D. A has more cars than D but less than E. The one who has the second-highest number of cars has brought 11 cars. F has fewer cars than A but more than I. The one who has the 5th highest number of cars has brought 8 cars.

Q:10 How many persons have more cars than A?

1.Four

2.Three

3.None

4.Two

5.None of these

Q:11 How many cars may B have?

1.8 cars

2.7 cars

3.11 cars

4.10 cars

5.None of these

Q:12 Who has the highest number of cars?

1.C

2.B

3.D

4.E

5.G

Q:13 Who has the second least number of cars?

1.I

2.F

3.D

4.A

5.None of these

Q:14 Which pair has the least and highest number of cars respectively?

1.F, I

2.I, G

3.H, I

4.A,I

5.None of these

Direction (15 to 19): Read the given passages carefully and answer the following questions.

Eight persons namely R, V, M, K, T, G, S and P are arranged according to their weight. Each one of them likes different colour Purple, Cyan, Magenta, Pink, Peach, Teal, Red and Lime. Only two persons are heavier than V. G is heavier than T but lighter than S. R likes Magenta colour and is lighter than M. T is not the lightest. R is heavier than S. The one who is the lightest like red colour. K likes Peach colour. K is heavier than G but lighter than S. The one who likes Lime is heavier than Pink but lighter than the one who likes Purple. The one who likes Teal is heavier than the one who likes cyan but lighter than the one who likes Pink.

Q:15 How many persons are lighter than the person who likes Peach color?

1.Two

2.None

3.One

4.Three

5.None of these

Q:16 Who likes Red color?

1.P

2.T

3.G

4.K

5.None of these

Q:17 Which color does M like?

1.Teal

2.Cyan

3.Red

4.Lime

5.Purple

Q:18 How many persons are heavier than K?

1.Three

2.Four

3.Five

4.Six

5.None of these

Q:19 Which of the following person likes Teal?

1.T

2.P

3.S

4.G

5.None of these

Direction (20 to 24): Read the given passages carefully and answer the following questions.

Six books – English, Hindi, Science, Computer, Maths, and Sanskrit each contain a different number of pages. Computer book contains fewer pages than only two books. English book contains more pages than Science book but fewer than Sanskrit book. The science book does not have the least number of pages. Sanskrit book contains fewer pages than only Hindi book. The book with the third-lowest pages contains 30 pages and the book with the highest number of pages contains 63 pages.

Q:20 What can be the possible number of pages of the computer book?

1.63 pages

2.30 pages

3.29 pages

4.54 pages

5.23 pages

Q:21 Which book contains the highest number of pages?

1.Hindi

2.Science

3.Sanskrit

4.Maths

5.None of these

Q:22 What can be the possible number of pages the Math book contains?

1.31 pages

2.43 pages

3.50 pages

4.25 pages

5.36 pages

Q:23 How many books have more pages than English book but fewer pages than the Hindi book?

1.One

2.Two

3.Three

4.None

5.None of these

Q:24 If Sanskrit and Computer books contain 89 pages together and Computer and English book contain 63 pages together then what is the number of pages that Sanskrit book contains?

1.54 pages

2.63 pages

3.70 pages

4.90 pages

5.None of these

Direction (25 to 29): Read the given passages carefully and answer the following questions.

Eight people namely C, D, E, F, P, Q, R, and S participated in a game having 2 teams Team A and Team B. Team A contains people whose name's letter comes before the letter M, and Team B contains people whose name's letter comes after the letter M. Each one of them secured different points in the class and like different colors i.e Yellow, Blue, Green, Black, Red, Orange, Pink, and White. They are arranged according to their points and the points they got are multiples of 5 (where the minimum point is 15 and the maximum point is 50). Only two people scored greater than F who likes Pink color. Three people scored between F and the one who likes Green color. D who likes Orange color scored minimum points. E scored less than C but greater than P, who likes Blue color. Q scored more than F but not the highest point. The one who scored the highest point likes Red color. Four people scored between the one who likes Blue color and the one who likes Red color. C doesn't like Red color. R likes green color. Only one person scored between the one who likes Black and C. E doesn't like yellow color.

Q:25 What is the difference between the points who like Black color and D?

1.30

2.20

3.10

4.5

5.25

Q:26 What is the sum of the points scored by C and P?

1.50

2.40

3.60

4.35

5.75

Q:27 Who likes Pink color?

1.F

2. Q

3. R

4. P

5. E

Q:28 E scored how many points?

1. 35

2. 30

3. 15

4. 20

5. 25

Q:29 How many people belong to Team B who scored more points than E?

1. 2

2. 3

3. 4

4. 1

5. 0

Direction (30 to 31): Read the given passages carefully and answer the following questions.

In an annual college function five students namely P, Q, R, S, and T participated in a car racing competition. All of them covers a different distance. The distances were 27, 29, 31,33, and 35 km but not necessarily in the same order. The rank obtained by the students doesn't necessarily relate to the distance covered by them. They all wear shirts of different colors as well viz. Black, Blue, Brown, Red, and Green. Each student is called for racing one by one. Q and the person who is called fifth for the race drives more than 30 km and neither of them wears a blue shirt. R wears a green shirt and he drove immediately before the one who gets the first rank. The person whose position was fourth is wearing a red shirt and drives the car two km less than the one who drove the car only after one person. T was the first to drive the car but he doesn't finish last. The one who drove immediately after P was in a brown shirt. S doesn't cover 31 or 35 km. The person who is in a blue shirt doesn't get 2nd or 4th rank. The one who wears a black shirt doesn't drive 31 km. The ranking of R is the same as the position of the one who covered 27 km. The ranking of S is not more than that of the one who is in a redshirt.Q and the person who is called fifth for the race drives more than 30 km and neither of them wears a blue shirt. R wears a green shirt and he drove immediately before
the one who gets the first rank. The person whose position was fourth is wearing a red shirt and drives the car two km less than the one who drove the car only after one person. T was the first to drive the car but he doesn't finish last. The one who drove immediately after P was in a brown shirt. S doesn't cover 31 or 35 km. The person who is in a blue shirt

Series Questions - 60 Difficulty Wise MCQs with Solutions

Q:30 Which of the following combination is not correct?

1.P - Red - 27 km

2.Q - Black - 35 km

3.R - Green - 29 km

4.S - Brown - 33 km

5.All are correct

Q:31 The one who is wearing a green shirt gets which rank?

1.First

2.Second

3.Third

4.Fourth

5.None of these

Q:32 Which of the following person drives 27 km?

1.P

2.Q

3.R

4.S

5.T

Direction (33 to 37): Read the given passages carefully and answer the following questions.

There are eight people A, B, C, D, E, F, G, and H, whose annual incomes are Rs 200000, Rs 425000, Rs 550000, Rs 600000, Rs 1000000, Rs 1200000, Rs 1500000 and Rs 2000000, but
not necessarily in the same order. Their annual salaries are arranged in ascending order and they are ranked accordingly such that Rank 1 is for the highest earner and Rank 8 for the lowest. G earns more than only H and D. C earns less than E, who is not the highest earner among all of them. The second highest person earns Rs 1500000 while the lowest earner earns Rs 200000. A's annual income is Rs 600000 and he comes fifth in the ranking. C's earning is double that of A's earnings. F is the highest earner with an annual income double that of B's income. B's income ranks immediately between A and C. D earns Rs 425000, which is more than H's annual income. Among B and F, one of them earns Rs 1000000.

Q:33 Who ranks immediately between D and A?

Series Questions - 60 Difficulty Wise MCQs with Solutions

1.G

2.E

3.F

4.H

5.A

Q:34 Whose annual income is Rs 12,00,000?

1.C

2.A

3.H

4.G

5.E

Q:35 What is the annual income of the highest earner?

1.Rs 20,00,000

2.Rs 5,50,000

3.Rs 50,00,000

4.Rs 10,00,000

5.Rs 14,00,000

Q:36 Whose income ranks third highest?

1.C

2.A

3.B

4.D

5.E

Q:37 Who is the lowest earner?

1.A

2.C

3.E

4.G

5.H

Direction (38 to 40): Read the given passages carefully and answer the following questions.

There are seven people in a family and all of them are of different ages. Age of all persons calculated on the bases of 2022. P is one of the persons.
A*B means A is older than B
A&B means A younger B
A2@ means at least two persons are younger than A
A2^ means at least two persons are older than A

means A is the third oldest person
A3! means A is the third youngest person
A# means A is the oldest person
A© means A is the youngest person
A%B means neither A nor B is the youngest person
Further, it is given that:
1. S3^
2. Q# is not true
3. S*R*U
4. V©
5. Q*(S, T)
6. The 2! was born in 1988
7. The 2

A3   was born in 1964

Q:38 Who among the following is just younger than 4$ person?

1.S

2.T

3.P

4.R

5.None of these

Q:39 What is the age of U?

4. 39

5. Cannot be determine

Q:40 Who among the following is 4! person?

1. T

2. S

3. R

4. P

5. None of these

Direction (41 to 42): Read the given passages carefully and answer the following questions.

Eight people buy different kilograms of rice in a store. The kilogram of rice G buys is a prime number.
X#Y means X buys more rice than Y.
X&Y means X buys less rice than Y
X@ means X buys the highest amount of rice
X^ means X buys the lowest amount of rice

means X buys the third-highest kg of rice
X3! means X buys the third lowest kg of rice
X#*Y means X buys more rice than only Y
X&*Y means X buys less rice than only Y
X%Y means neither X nor Y buys the smallest quantity of rice.
Further, it is given that:

X3 1. C3

2. F#D#B

3. A%B

4. F@ is not true

5. D#G#B

6. The 2! Kg of rice is 58

7. The one @ of rice is 84.

8. E#*H

Q:41 If the price per kg of rice is 75 and C pays 5850Rs., then what is the average quantity of rice brought by the one who purchased @ and the C?

1.70

2.95

3.83

4.81

5.None of these

Q:42 Who among the following buys just more kg of rice of 3!?

1.D

2.F

3.A

4.B

5.G
