, you can access our blog through the provided link. Having acquainted yourself with the CHSL Tier 2 Syllabus and its Exam Pattern, we will now provide a concise overview of the marks normalization.

CHSL Marks Normalization

First, let's clarify what is meant by "

marks normalization

." A statistical method called "marks normalization" is used to account for changes in question paper difficulty between exam shifts. Because of these variations in question complexity, it would be unfair to compare scores directly between shifts. By ensuring that scores are uniform, normalization helps to close this gap and enables a more accurate evaluation of candidates.

To address this issue, SSC has released a formula, as outlined in

Notice No.1-1/2018-P&P-I dated 07-02-2019

. These standardized scores will be used to determine the cut-off marks, which will subsequently contribute to the compilation of the merit list.
