SSC GD Constable Syllabus 2023 - Subject Wise Topics Weightage

Now that you are thoroughly acquainted with the SSC GD Constable syllabus 2023, let us guide you through the PET requirements for this exam. For the Physical Efficiency Test (PET), candidates are to appear in a race. The time and distance criteria for this race vary for men and women. You can refer to the table below to learn about these criteria in detail:

	Male	Female	Remarks
Race	5 Kms in 24 mins.	1.6 Kms in 8.5 mins.	For candidates other than those belonging to the Ladakh Region.
	1.6 km in 6.5 mins.	800 metres in 4 mins.	For candidates of the Ladakh Region

There was an amendment notice released with regard to the possibility of pregnancy in women at the time of appearance in the PET/ PST. In case you want to check out the [official amendment notification](#), you can do so by clicking on the embedded link.

Moreover, the notice stated that every female candidate must sign a self-declaration indicating their pregnancy status.

- **In case of a false declaration**, the candidate will be held accountable for any risks or mishaps.
- **In case of a pregnancy declaration**, the candidate will be deemed unfit for appearing in the test. However, her vacancy will be kept reserved for her.
- **In case the candidate is found negative for pregnancy**, she will be permitted to appear in the PET/ PST.

SSC GD Constable Physical Standard Test

SSC GD Constable Marking Scheme 2023

There are a total of 80 questions in the SSC GD Constable examination, and **each of these questions is of 2 marks**. However, for every wrong answer, there is a **negative marking of 0.5 marks**. Moreover, you will be given **60 minutes time** in order to attempt all of these questions. You must remember that this is not a hard exam to crack since the levels of the questions are equivalent to the high school level.

Now, let us further discuss the marks normalization process for the SSC GD Constable exam.

SSC GD Marks Normalisation 2023

Firstly, let's establish what marks normalization is. Well, it is a statistical technique that takes into account any differences in the degree of difficulty of the question papers across various shifts of the same exam. Direct score comparison may not be fair because questions from various shifts may range in complexity. In order to enable a more fair evaluation of applicants, normalization thereby overcomes this problem by equating the scores.

In addition, SSC published the formula that will be followed in **Notice No.1-1/2018-P&P-I dated 07-02-2019**. They will further utilize these normalized scores to determine the cut-off marks, followed by the merit list.
