

Analytical Reasoning Questions Overview

Analytical Reasoning Questions have a good weightage in the Ssc Chsl Exam and the type of question asked in Ssc Chsl exam is similar to the question mentioned below. It has been solved and explained by KD Live Experts under the guidance of Neetu Mam and they have tried to elaborate the concept used in Analytical Reasoning Questions.

Question On Analytical Reasoning

In this question, two statements I and II have been given. These statements may be independent causes or effects of independent causes or a common cause. One of the statements may be the effect of the other statement. Read both statements and select the correct answer. I. Razorpay's introduction of the 'Turbo UPI,' a one-step payment solution for the Unified Payments Interface (UPI) network. II. Razorpay's Turbo UPI can potentially contribute to increased adoption of UPI in India, leading to a growth in digital payments and a reduction in cash transactions.

Difficulty : Moderate

Average Time : 51 Seconds

Analytical Reasoning Questions Options

1. II is the cause and I is its possible effect
2. I is the cause and II is its possible effect
3. Both I and II are effects of independent causes
4. Both I and II are independent causes

Analytical Reasoning Questions Solution

The correct answer is **Option 2** i.e. **I is the cause and II is its possible effect**

It can be concluded that Statement II is the effect of Statement I. By introducing Turbo UPI, Razorpay aims to simplify the payment process and provide a seamless experience for users. This one-step payment solution eliminates the need for users to be redirected to third-party UPI apps during checkout. This enhanced convenience and integration can potentially encourage more users to adopt UPI as their preferred payment method.

As a result of the increased adoption of UPI facilitated by Razorpay's Turbo UPI, there can be subsequent growth in digital payments. UPI allows for instant and secure bank-to-bank transactions, and its widespread adoption can lead to a reduction in cash transactions. This shift from cash to digital payments can have several positive effects, such as reducing the dependence on physical currency, improving transparency in financial transactions, and increasing overall transaction

efficiency.

Therefore, the introduction of Razorpay's Turbo UPI (Statement I) can potentially contribute to increased adoption of UPI, leading to a growth in digital payments and a reduction in cash transactions (Statement II).

Hence, the correct answer is **I is the cause and II is its possible effect.**

Analytical Reasoning Questions Tips and Tricks

1. Try to solve Analytical Reasoning Questions without taking any help from the solutions.
2. Analytical Reasoning Questions require proper usage of concept so firstly read the question thoroughly and then use the right concept.
3. In case you're not able to solve the question in less than 30 seconds in the exam then you should skip the question and move to the next question.
