Comprehension On Analytical Reasoning Questions

Direction: Below in each question are given two statements I and II. These statements may be independent causes or may be effects of independent causes or a common cause. One of these statements may be the effect of the other statements. Read both statements and decide which of the following answer choice correctly depicts the relationship between these two statements and mark answers.

Question On Analytical Reasoning

Statement I: Over 30% even have less than \$1.25 per day available - they are considered extremely poor. This makes the Indian subcontinent one of the poorest countries in the world; women and children, the weakest members of Indian society, suffer the most. Statements II: India is the second-most populous country after China with about 1.2 billion people and is the seventh-largest country in the world with an area of 3,287,000 km². The highly contrasted country has enjoyed growth rates of up to 10% over many years and is one of the largest economies in the world, with a gross domestic product (GDP) of 1,644 billion US dollars. But only a small percentage of the Indian population has benefited from this impressive economic boom so far, as the majority of people in India are still living in abject poverty.
