

Coding Decoding Questions Overview

Coding Decoding Questions have a good weightage in the Ssc Cgl Exam and the type of question asked in Ssc Cgl exam is similar to the question mentioned below. It has been solved and explained by KD Live Experts under the guidance of Neetu Mam and they have tried to elaborate the concept used in Coding Decoding Questions.

Comprehension On Coding Decoding Questions

Direction: Study the following information carefully and answer the questions given below. A, B, C, D, E, F, and G are seven different boxes. Each box is painted with a different color - Red, Pink, White, Blue, Purple, Green, and Yellow but not necessarily in the same order. There are only two boxes between box D and the box which is painted Red. Box C is below the box which is painted White. Box F is at the top of all the boxes. The box which is painted Yellow is immediately above box C. Both C and D are above the box that is painted Red. Box G is not of Purple color. Only one box is there between B and E. Neither box B nor A is painted Purple. Box A is not Pink in color. The box which is painted Red is immediately above A. There are only three boxes between box C and the box which is painted White. The box which is painted Blue is immediately above box B. Box B is above box E.

4. There are only two boxes between D and the box which is painted Red.

5. Both C and D are above the box that is painted Red.
(Case 3 gets eliminated here because in this case box C is placed at the very bottom)

6. Box which is painted Red is immediately above box A.

(Here case 2 gets eliminated because in this case, Red color box is at the extreme bottom)
