

Cubes And Dice Questions Overview

Cubes And Dice Questions have a good weightage in the Ssc Cgl Exam and the type of question asked in Ssc Cgl exam is similar to the question mentioned below. It has been solved and explained by KD Live Experts under the guidance of Neetu Mam and they have tried to elaborate the concept used in Cubes And Dice Questions.

Question On Cubes And Dice

Two positions of a dice are shown below. When six is shown at the top, what will be the number at the bottom?

Difficulty : Moderate

Average Time : 34 Seconds

Cubes And Dice Questions Options

- 1
- 5
- 4
- either (2) or (3)

Cubes And Dice Questions Solution

The correct answer is **option 3** i.e. 4

Understanding	Application
---------------	-------------

TRICK:

When one element is common on both the dice but on different surfaces, then rotate it either in a clockwise or anticlockwise direction to find the opposite surface.

Here, 2 is common on both the dice. Thus, we'll rotate it in a clockwise direction. We get:

Dice 1: 2, 4, 1

Dice 2: 2, 6, 3

4 will be opposite to 6.

Similarly, 1 will be opposite to 3.

Now, 2 will be opposite to the remaining number 5.

When six is on Top, then **four (4)** will be on the bottom.

Cubes And Dice Questions Tips and Tricks

1. Try to solve Cubes And Dice Questions without taking any help from the solutions.
2. Cubes And Dice Questions require proper usage of concept so firstly read the question thoroughly and then use the right concept.
3. In case you're not able to solve the question in less than 30 seconds in the exam then you should skip the question and move to the next question.
