

# Inequality Questions Overview

Inequality Questions have a good weightage in the Ssc Chsl Exam and the type of question asked in Ssc Chsl exam is similar to the question mentioned below. It has been solved and explained by KD Live Experts under the guidance of Neetu Mam and they have tried to elaborate the concept used in Inequality Questions.

## Comprehension On Inequality Questions

**DIRECTIONS:** In the following questions the symbols % # & @ are used with the following meanings as illustrated below. X % Y means that X is smaller than Y. X# Y means that X is equal to Y. X & Y means that X is greater than Y. X @ Y means that X is either greater than or equal to Y. Now in each of the following questions assuming the given statements to be true, find which of the given below them is/are definitely true. Statement: X % Y, P @ R, Y # R

### Question On Inequality

In which of the following expression Y % P and Y # P is definitely true?

Difficulty : Moderate

Average Time : 58 Seconds

## Inequality Questions Options

1. X % Y, P @ R, Y # R
2. X # P, Y % R, X # Y
3. P % R @ Y, X # R
4. X % R, X & Y, X # P
5. None of the above

## Inequality Questions Solution

The correct answer is **Option 1** i.e X % Y, P @ R, Y # R

Understanding

From the given statement the decoding can be done as:

$Y \% P$  means  $Y > P$  and  $Y \# P$  means  $Y = P$ .

That simply means that  $Y > P$  and  $Y = P$ .

Now check each given expression one by one for finding the correct answer.

It is given in option 1 that  $X \% Y, P @ R, Y \# R$ . That means  $X$  is smaller than  $Y$ ,  $P$  is greater than  $Y$  and  $P$  is equal to  $Y$ , and  $Y$  is equal to  $R$ . That is  $X < Y, P > R, Y = R$

Here  $Y$  is greater than  $X$  and equal to  $R$ . And  $R$  is smaller than  $P$  that means  $Y$  is also smaller than  $P$ .

Again,  $P$  is greater than or equal to  $R$ . and  $R$  is equal to  $Y$ . That means  $Y$  is also equal to  $P$ .

Hence, option 1 is the correct expression for the given question.

## Inequality Questions Tips and Tricks

- Try to solve Inequality Questions without taking any help from the solutions.
2. Inequality Questions require proper usage of concept so firstly read the question thoroughly and then use the right concept.
  3. In case you're not able to solve the question in less than 30 seconds in the exam then you should skip the question and move to the next question.
