Understanding

The sitting arrangement asked is represented in the following way:

According to the given information, Arvind is 15th from the right end and Ankit is 5th from the left end before interchanging their position. After the interchange, Arvind's position is 12th from the right end which is also 5th from the left end.

Therefore, total number of persons = (Arvind's position from the right end + Arvind's position from the left end - 1)
