

# Permutation And Combination Questions Overview

Permutation And Combination Questions have a good weightage in the Ssc Chsl Exam and the type of question asked in Ssc Chsl exam is similar to the question mentioned below. It has been solved and explained by KD Live Experts under the guidance of Neetu Mam and they have tried to elaborate the concept used in Permutation And Combination Questions.

## Question On Permutation And Combination

In how many different ways can the letters of the word RUMOUR be arranged so that the vowels always come together?

Difficulty : Moderate

Average Time : 34 Seconds

## Permutation And Combination Questions Options

1. 36
2. 80
3. 72
4. 30
5. None of the above

## Permutation And Combination Questions Solution

The correct answer is **option 1** i.e. **36**.

Solution :

If we are required to keep all the vowels together, consider all the vowels as one letter -

UOU	R	M	R
-----	---	---	---

Now all the letters can be arranged in  $4!$  ways. But R is repeated twice, then the number of arrangements will be  $4!/2!$ .

Also the vowels can be arranged in  $3!$  ways, but repetition of U twice, the number of arrangements will be  $3!/2!$

Therefore the required number of arrangements =  $4!/2! \times 3!/2!$

$4 \times 3 \times 3 = 36$  ways.

## Permutation And Combination Questions Tips and Tricks

1. Try to solve Permutation And Combination Questions without taking any help from the solutions.
2. Permutation And Combination Questions require proper usage of concept so firstly read the question thoroughly and then use the right concept.
3. In case you're not able to solve the question in less than 30 seconds in the exam then you should skip the question and move to the next question.
