2. DACB
3. BACD
4. DCBA

## Sentence Jumbles Questions Solution

The correct answer is option 4, i.e. DCBA

1. Sentence D introduces us to the impact of Corona Virus over China and the other parts of the world. This will be the first sentence as the rest of the statements goes on to talk about the numbers regarding the virus/pandemic without any proper introduction to the context of the passage.
2. Sentence C starts with a conjunction, which means the meaning of the sentence becomes an adjoining point to the meaning of the first sentence. It goes on to talk about the number of deaths in other parts of the world, eventually proving again the meaning of the first sentence, which stated that other parts in the world are highly affected as compared to China.

Sentence B goes on to talk about how China's containment of the virus is evident due to the fall in the number of cases and resulting deaths. So, B would appear as the third sentence as it adds more meaning to the entire context of the passage.

4. Sentence A concludes with the severity of the European parts that have faced the outbreak of the virus..This conclusion will make this very statement as the final one in the passage.

This is the correct arrangement as it provides a sequential and fluent form to the entire passage where the context is first introduced, backed by statistical numbers in the next sentence, followed by China's current situation and finally the conditions that are prevalent in other parts of the world.
