

Ssc Cgl Tier I Previous Year Question Paper Overview

Here, you can solve all the questions asked in Ssc Cgl Tier I Previous Year Question Paper on 2022-04-13 in the Afternoon exam. The detailed solutions are also provided for every previous year question and some of these questions can be asked again in your Ssc Cgl Tier I exam. There are 100 questions in the exam and 60 minutes are provided for the Ssc Cgl Tier I exam. The Cutoff of the exam was 140 marks hence you should try to score at least 150 marks.

Ssc Cgl Tier I Previous Year Question Paper : Questions and Solutions

Question 1 :

Which of the following animals has more than one heart?

Difficulty : Moderate

Average Time : 41 Seconds

Options :

1. Porcupine
2. Chameleon
3. Tortoise
4. Octopus

Solution :

The correct answer is **option 4** i.e. **Octopus**.

- Octopuses or octopi are one of the most well-known animals with multiple hearts.
- There are hundreds of species of octopus, but all have three hearts: one heart to pump their blood throughout their circulatory system, and two to pump blood through their gills.

Question 2 :

Which of the following became the second state in the country to achieve 100% functional household tap connections (FHTCs)?

Difficulty : Moderate

Average Time : 46 Seconds

Options :

1. Kerala

2. Sikkim

3. Telangana

4. Mizoram

Solution :

The correct answer is **option 3** i.e. **Telangana**

- Telangana became the second state in the country to achieve 100% functional household tap connections (FHTCs).
- Jal Jeevan Mission (JJM) envisages the supply of 55 litres of water per person per day to every rural household through Functional Household Tap Connections (FHTC) by 2024.
- Goa has earned itself the unique distinction of becoming the first Har Ghar Jal state in the country as it successfully provides 100% Functional Household Tap Connections (FHTCs) in rural areas covering 2.30 lakh rural households.

Question 3 :

Which of the following is an Indian 'not for profit' organisation, working on sustainable solutions to make sanitation and water accessible to all?

Difficulty : Moderate

Average Time : 57 Seconds

Options :

1. Pratham

2. Helpage India

3. Goonj

4. Sulabh International

Solution :

The correct answer is **option 4** i.e. **Sulabh International**

- Sulabh International is an Indian 'not for profit' organisation, working on sustainable solutions to make sanitation and water accessible to all.
- On March 5, 2022, Ministry of Jal Shakti, Ministry of Housing and Urban Affairs in collaboration with Sulabh International organized an event "Swacchagraha".
- It also featured a performance by Dhruva- The Sanskrit Band, the world's only music band based on India's oldest own tradition of Vedic-gaan and Stotra-gaan.

Question 4 :

Which of the following legislations ought to allow senior Indian magistrates to preside over cases involving British subjects in India?

Difficulty : Moderate

Average Time : 55 Seconds

Options :

1. Ilbert Bill, 1884
2. Ingress into India Ordinance, 1914
3. Government of India Act, 1919
4. Age of Consent Act, 1891

Solution :

The correct answer is **option 1** i.e. **Ilbert Bill, 1884**

- Ilbert Bill, 1884 ought to allow senior Indian magistrates to preside over cases involving British subjects in India.
- The Ilbert Bill was introduced on 9 February 1883 during the Viceroyship of Lord Ripon, which was drafted by Sir Courtenay Peregrine Ilbert, the legal member of the Council of the Governor-General of India.
- After this controversial bill, the formation of the Indian National Congress took place.

Question 5 :

The _____ is the extended margin of each continent occupied by relatively shallow seas and gulfs.

Difficulty : Moderate

Average Time : 54 Seconds

Options :

1. deep sea plain
2. oceanic deeps
3. continental slope
4. continental shelf

Solution :

The correct answer is **option 4** i.e. **continental shelf**.

- The term "continental shelf" is used by geologists generally to mean that part of the continental margin.
- This is between the shoreline and the shelf break or, where there is no noticeable slope, between the shoreline and the point where the depth of the superjacent water is approximately between 100 and 200 metres.

**Question 6 :**

As per Economic Survey 2020–21, India entered the top 50 innovating countries for the first time in _____ since the inception of the Global Innovation Index in 2007.

Difficulty : Moderate**Average Time : 51 Seconds****Options :**

1. 2019
2. 2018
3. 2020
4. 2017

Solution :

The correct answer is **option 3** i.e. **2020**.

- India has entered the group of top 50 countries in the global innovation index for the first time, moving up four places to the 48th rank akeeping the top position among the nations in central and southern asia.
- According to GII, India has become the third most innovative lower middle-income economy in the world.
- India ranks in the top 15 in indicators such as ICT (Information and Communication Technology) services exports, government online services, graduates in science and engineering, R&D-intensive global companies.

Question 7 :

Who among the following freedom fighters hoisted the Indian flag at the Gowalia Tank Maidan in Mumbai during the Quit India Movement?

Difficulty : Moderate**Average Time : 59 Seconds****Options :**

1. Aruna Asaf Ali
2. Sarojini Naidu
3. Tara Rani Srivastava
4. Matangini Hazra

**Solution :**

The correct answer is **option 1** i.e. **Aruna Asaf Ali**.

- Aruna Asaf Ali was an Indian educator, political activist, and publisher.
- An active participant in the Indian independence movement, she is widely remembered for hoisting the Indian National flag at the Gowalia Tank maidan, Bombay during a Quit India Movement in 1942, giving the movement one of its most long-lasting image.
- She became a member of Indian National Congress and participated in public processions during the Salt Satyagraha.
- She was arrested, and not released in 1931 under the Gandhi-Irwin Pact which stipulated release of all political prisoners.

Question 8 :

A sum of Rs 4620 is to be paid back in 2 equal annual instalments. How much is each instalment(in Rs) if the interest is compounded annually at 10% per annum?

Difficulty : Moderate**Average Time : 65 Seconds****Options :**

1. 2420
2. 2552
3. 2662
4. 2750

Solution :

The correct answer is **option 3** i.e. **2662**

P = Rs 4620

Rate of interest = 10% = 1/10

P Installment

1st year $10 \ 11 \dots\dots(1)$

2nd year $10^2 \ 11^2 \dots\dots(2)$

Installment will same in both years so multiply by 11 in eq 1.

1st year $110 \ 121$

2nd year 100 121

Here, $P = 110 + 100 = 210$ that is equal to the 4620

$210 = 4620$

$1 = 22$

So, installment = $22 \times 121 = \text{Rs } 2662$

Question 9 :

_____ is defined as the temperature to which the air would have to cool (at constant pressure and constant water vapour content) in order to reach saturation.

Difficulty : Moderate

Average Time : 56 Seconds

Options :

1. Dew point temperature
2. Air temperature
3. Relative humidity
4. Surface temperature

Solution :

The correct answer is **option 1** i.e. **Dew point temperature**.

- The dew point is the temperature the air needs to be cooled to (at constant pressure) in order to achieve a relative humidity (RH) of 100%.
- Dew point temperature is never greater than the air temperature.
- Therefore, if the air cools, moisture must be removed from the air and this is accomplished through condensation.

Question 10 :

Who became the first player to hit 350 sixes during IPL2021?

Difficulty : Moderate

Average Time : 49 Seconds

Options :

1. AB de Villiers
2. MS Dhoni
3. Chris Gayle

Rohit Sharma

Solution :

The correct answer is **option 3** i.e. **Chris Gayle**.

- Chris Gayle became the first batsman to hit 350 sixes in the history of the Indian Premier League (IPL).
- Gayle achieved the iconic milestone in the IPL 2021 match between Punjab Kings and Rajasthan Royals at the Wankhede Stadium in Mumbai.
- He later hit his 351st six in IPL history against Rahul Tewatia.

Question 11 :

Who among the following was named Wisden Almanack's ODI player of the 2010s in April 2021?

Difficulty : Moderate

Average Time : 50 Seconds

Options :

1. Virat Kohli
2. Rahul Dravid
3. Sachin Tendulkar
4. MS Dhoni

Solution :

The correct answer is **option 1** i.e. **Virat Kohli**.

- India captain Virat Kohli has been named Wisden Almanack's ODI player of the 2010s, while England all-rounder Ben Stokes was declared the 'Cricketer of the Year' for a second successive time by the highly-rated annual publication.
- The 32-year-old Kohli, who made his ODI debut in August 2008 against Sri Lanka, is among the finest batsmen of all time, and has amassed a staggering 12,169 runs from 254 ODIs.

Question 12 :

The salinity of ocean waters is calculated as the amount of salt (in gm) dissolved in _____ gm of seawater.

Difficulty : Moderate

Average Time : 55 Seconds

Options :

1. 10,000

1000

3. 100

4. 10

Solution :

The correct answer is **option 2** i.e. **1000**.

- Salinity of seawater is usually expressed as the grams of salt per kilogram (1000 g) of seawater.
- Water and soil salinity are measured by passing an electric current between the two electrodes of a salinity meter in a sample of soil or water.

Question 13 :

Select the option that will improve the underlined part of the given sentence. In case no improvement is needed, select 'No improvement required'. Many a man has succumbed to his temptations.

Difficulty : Moderate

Average Time : 48 Seconds

Options :

1. men has
2. a men have
3. man has
4. No improvement required

Solution :

The correct answer is **option 4** i.e. **No improvement required**.

Given sentence: Many a man has succumbed to his temptations.

The given sentence is grammatically and contextually correct. Hence, no improvement is required.

Question 14 :

Select the option that can be used as a one-word substitute for the given group of words. Sharpness and accuracy of judgment

Difficulty : Moderate

Average Time : 44 Seconds

Options :

1. Expreience

Estimation

3. Acumen

4. Knowledge

Solution :

The correct answer is **option 3** i.e. **Acumen**.

One Word Substitution means using a specific word to replace a wordy phrase or sentence and making it shorter, concise, and clearer to understand.

The sharpness and accuracy of a judgment is known as acumen.

The practical contact with and observation of facts or events is known as an experience.

A rough calculation of the value, number, quantity, or extent of something is known as an estimation.

Select the most appropriate synonym of the given word. Succulent

Difficulty : Moderate

Average Time : 53 Seconds

Options :

1. Decent
2. Coarse
3. Juicy
4. Foul

Solution :

The correct answer is **option 3** i.e. **Juicy**.

Synonym: Words that have the same or nearly the same meaning.

Given word: Succulent

Meaning: tender, juicy, and tasty.

The word that seems to be its synonym is 'Juicy' as it means full of juice.

Meaning of other words:

Decent: conforming with generally accepted standards of respectable or moral behaviour.

Coarse: rough or harsh in texture.

Foul: offensive to the senses.

Question 17 :

Who among the following defeated Harshavardhana when he invaded the Chalukya kingdom in the Deccan?

Difficulty : Moderate

Average Time : 55 Seconds

Options :

1. Mangalesha
2. Pulakesin II

Vikramaditya I

4. Kirtivarman I

Solution :

The correct answer is **option 2** i.e. **Pulakesin II**.

- Pulakesin II, the son of Kirtivarman, was one of the greatest rulers of the Chalukya dynasty. He began his rule in the year 620 A.D
- During his reign, he consolidated his authority in Maharashtra and conquered large parts of the Deccan.
- His greatest achievement was his victory in the defensive war against Harshavardhana.

Question 18 :

What is the projected growth rate of Gross Domestic Product (GDP) for India in 2021 as given by The International Monetary Fund (IMF) in April 2021?

Difficulty : Moderate

Average Time : 51 Seconds

Options :

1. 13.7%
2. 10.2%
3. 11.6%
4. 12.5%

Solution :

The correct answer is **option 4** i.e. **12.5%**.

- The International Monetary Fund (IMF) raised its FY22 growth forecast for India to 12.5% from 11.5%
- The Fund expects world output to grow 6% in 2021 and 4.4% in 2022.
- The IMF forecast pitches India as the fastest-growing major economy and the only one expected to record a double-digit recovery from pandemic-hit 2020.

Select the most appropriate ANTONYM of the given word. Rectify

Difficulty : Moderate

Average Time : 52 Seconds

Options :

1. Corrupt
2. Select
3. Correct
4. Assist

Solution :

The correct answer is **option 1** i.e. **Corrupt**.

Antonym: a word opposite in meaning to another.

Rectify means put right; correct.

Corrupt is the correct antonym that means to act dishonestly in return for money or personal gain.

Meaning of other words:

Select: carefully choose as being the best or most suitable.

Correct: free from error.

Assist: to help someone.

Question 40 :

Select the correct indirect speech form of the given sentence. The teacher said, "You must work hard for your exams."

Difficulty : Moderate

Average Time : 53 Seconds

Options :

1. The teacher was advising her students to do work hard for their exams.
2. The teacher told students for working hard for their exams.

The teacher was telling her students to work hard for their exams.

4. The teacher advised her students to work hard for their exams.

Solution :

The correct answer is **option 4** i.e. **The teacher advised her students to work hard for their exams.**

Given sentence: The teacher said, "You must work hard for your exams."

In indirect speech, we need to remove commas and inverted commas, and the conjunction 'that' is added.

Second-person pronouns are changed according to the object of the reporting verb. So, 'you' is changed to 'her', and 'your' is changed to 'their.'

So, the final sentence is:

The teacher advised her students to work hard for their exams.

Question 41 :

Arrange the statements in the correct order to make a meaningful paragraph. A. But, in developed societies, childhood and adolescence are extended. B. In rural communities, the customs are more uniform. C. This provides more opportunities for education and character development. D. The practices of child rearing vary from culture to culture.

Difficulty : Moderate

Average Time : 76 Seconds

Options :

1. DABC
2. BADC
3. DBAC
4. BCDA

Solution :

The correct answer is **option 3** i.e. **DBAC.**

The given question is an example of para jumbles.

Sentence D will be the introductory line that introduces child-rearing.

Sentence B further gives more information about the customs that are followed in rural communities.

Sentence A will be following sentence B as it tells about developed societies.

Sentence C will be the last sentence as it concludes the para.

The correct sequence is:

- D. The practices of child rearing vary from culture to culture.
- B. In rural communities, the customs are more uniform.
- A. But, in developed societies, childhood and adolescence are extended.
- C. This provides more opportunities for education and character development.

Question 42 :

Select the most appropriate synonym of the given word. Disrupt

Difficulty : Moderate

Average Time : 63 Seconds

Options :

1. Breach
2. Injure
3. Arrange
4. Organise

Solution :

The correct answer is **option 1** i.e. **Breach**.

Synonym: Words that have the same or nearly the same meaning.

Given word: Disrupt

Meaning: to interrupt.

The word that seems to be its synonym is 'Breach' as it means an act of breaking or failing to observe a law, agreement, or code of conduct.

Meaning of other words:

Injure: do physical harm.

Arrange: to organize.

Apathy: to arrange systematically.

Question 43 :

The following sentence has been split into four segments. Identify the segment that contains a grammatical error. The crew / of sailors / were not perturbed / by the strong gale.

Difficulty : Moderate

Average Time : 57 Seconds

Options :

1. of sailors
2. by the strong gale
3. The crew
4. were not perturbed

Solution :

The correct answer is **option 4** i.e. **were not perturbed**.

Given sentence: The crew / of sailors / were not perturbed / by the strong gale.

The crew of sailors is a collective noun, so it should take a singular verb. So, were should be replaced by was.

Correct sentence: The crew / of sailors / **was not perturbed** / by the strong gale.

Question 44 :

The following sentence has been split into four segments. Identify the segment that contains a grammatical error. The manager said, "Could you please / confirm me whether you / have received all the items / that you had ordered?"

Difficulty : Moderate

Average Time : 55 Seconds

Options :

1. The manager said, "Could you please
2. that you had ordered
3. have received all the items
4. confirm me whether you

Solution :

The correct answer is **option 4** i.e. **confirm me whether you**.

Given sentence: The manager said, "Could you please / confirm me whether you / have received all the items / that you had ordered?"

'Confirm me whether you' should be replaced by 'confirm whether you'.

Correct sentence: The manager said, "Could you please / **confirm whether you** / have received all the items / that you had ordered?"

Question 45 :

Select the INCORRECTLY spelt word.

Difficulty : Moderate

Average Time : 51 Seconds

Options :

1. Contrary
2. Terribal
3. Longtitude
4. Manners

Solution :

The correct answer is **option 2** i.e. **Terribal**.

The incorrectly spelled word is "Terribal".

Correctly spelled word: Terrible.

Meaning: extremely bad or serious.

Example: Traffic was held up by a terrible accident.

Question 46 :

Select the most appropriate ANTONYM of the given word. Negligent

Difficulty : Moderate

Average Time : 40 Seconds

Options :

1. Faithful
2. Strangle
3. Indifferent
4. Careful

Solution :

The correct answer is **option 4** i.e. **Careful**.

Antonym: a word opposite in meaning to another.

Negligent means failing to take proper care of something.

Careful is the correct antonym that means making sure of avoiding potential danger,

Meaning of other words:

Faithful: remaining loyal and steadfast.

Strangle: squeeze or constrict the neck, especially so as to cause death.

Indifferent: having no particular interest or sympathy; unconcerned.

Comprehension :

In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. The greedy man rushed home to tell his wife and daughter about his wish, all the (1) _____ touching the objects in his path and watching (2) _____ convert into gold. Once he got home, his daughter (3) _____ to greet him. As soon as he bent (4) _____ to scoop her up in his arms, she turned into a golden statue. He was (5) _____ and started crying and trying to bring his daughter back to life.

Question 47 :

Select the most appropriate option to fill in blank number 1.

Difficulty : Moderate

Average Time : 77 Seconds

Options :

1. while
2. wayside
3. interval
4. bit

Solution :

The correct answer is **option 1** i.e. **while**.

The passage talks about the greedy man and how his greed turned his daughter into a golden statue. The appropriate word for blank 1 is 'while' which means at the same time; meanwhile.

Comprehension :

In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. The greedy man rushed home to tell his wife and daughter about his wish, all the (1) _____ touching the objects in his path and watching (2) _____ convert into gold. Once he got home, his daughter (3) _____ to greet him. As soon as he bent (4) _____ to scoop her up in his arms, she turned into a golden statue. He was (5) _____ and started crying and trying to bring his daughter back to life.

Question 48 :

Select the most appropriate option to fill in blank number 2.

Difficulty : Moderate

Average Time : 65 Seconds

Options :

1. there
2. them
3. their
4. those

Solution :

The correct answer is **option 2** i.e. **them**.

The passage talks about the greedy man and how his greed turned his daughter into a golden statue. The appropriate word for blank 2 is 'them' which means it is used to refer to two or more people or things previously mentioned or easily identified.

Comprehension :

In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. The greedy man rushed home to tell his wife and daughter about his wish, all the (1) _____ touching the objects in his path and watching (2) _____ convert into gold. Once he got home, his daughter (3) _____ to greet him. As soon as he bent (4) _____ to scoop her up in his arms, she turned into a golden statue. He was (5) _____ and started crying and trying to bring his daughter back to life.

Question 49 :

Select the most appropriate option to fill in blank number 3.

Difficulty : Moderate

Average Time : 68 Seconds

Options :

1. rushing
2. was rush
3. has rushed
4. rushed

Solution :

The correct answer is **option 4** i.e. **rushed**.

The passage talks about the greedy man and how his greed turned his daughter into a golden statue. As the given sentence is in the simple past tense, so V2 form of the verb should be used.

Comprehension :

In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. The greedy man rushed home to tell his wife and daughter about his wish, all the (1) _____ touching the objects in his path and watching (2) _____ convert into gold. Once he got home, his daughter (3) _____ to greet him. As soon as he bent (4) _____ to scoop her up in his arms, she turned into a golden statue. He was (5) _____ and started crying and trying to bring his daughter back to life.

Question 50 :

Select the most appropriate option to fill in blank number 4.

Difficulty : Moderate

Average Time : 67 Seconds

Options :

1. along
2. up
3. through
4. down

Solution :

The correct answer is **option 4** i.e. **down**.

The passage talks about the greedy man and how his greed turned his daughter into a golden statue. The appropriate phrase for blank 4 is 'bent down' which means to lean down.

Comprehension :

In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. The greedy man rushed home to tell his wife and daughter about his wish, all the (1) _____ touching the objects in his path and watching (2) _____ convert into gold. Once he got home, his daughter (3) _____ to greet him. As soon as he bent (4) _____ to scoop her up in his arms, she turned into a golden statue. He was (5) _____ and started crying and trying to bring his daughter back to life.

Question 51 :

Select the most appropriate option to fill in blank number 5.

Difficulty : Moderate

Average Time : 65 Seconds

Options :

demolished

2. devastated

3. determined

4. destroyed

Solution :

The correct answer is **option 2** i.e. **devastated**.

The passage talks about the greedy man and how his greed turned his daughter into a golden statue. The appropriate word for blank 5 is 'devastated' which means destroy or ruin.

Question 52 :

Select the number from among the given options that can replace the question mark (?) in the following series. 240, 120, ?, 180, 360, 900

Difficulty : Moderate

Average Time : 41 Seconds

Options :

1. 120

2. 148

3. 150

4. 130

Solution :

The correct answer is **option 1** i.e. **120**.

Given series: 240, 120, ?, 180, 360, 900

The series follows this pattern:

$$240 \times 0.5 = 120$$

$$120 \times 1 = 120$$

$$120 \times 1.5 = 180$$

$$180 \times 2 = 360$$

$$360 \times 2.5 = 900$$

So, the missing term in the series is **120**.

Hence, **option 1** is the correct answer.

Question 53 :

In a certain code language, 'MANIA' is written as 'NZOHZ', and 'PROUD' is written as 'QSNTTE'. How will 'DONKEY' be written in that language?

Difficulty : Moderate

Average Time : 52 Seconds

Options :

1. EPOLFZ
2. CNONDZ
3. ENPLDX
4. ENOLDZ

Solution :

The correct answer is **option 4** i.e. **ENOLDZ**.

The logic used here is:

, and 'PROUD' is written as 'QSNTTE'

$$M + 1 = N$$

$$A - 1 = Z$$

$$N + 1 = O$$

$$I - 1 = H$$

$$A - 1 = Z$$

Similarly;

Code for the word DONKEY:

$$D + 1 = E$$

$$O - 1 = N$$

$$N + 1 = O$$

$$K + 1 = L$$

$$E - 1 = D$$

$$Y + 1 = Z$$

Hence, **option 4** is the correct answer.

Question 54 :

Four letter clusters have been given, out of which three are alike in some manner and one is different. Select the letter cluster that is different.

Difficulty : Moderate

Average Time : 58 Seconds

Options :

1. CNDV
2. SYGM
3. DBJH
4. LRPV

Solution :

The correct answer is **option 1** i.e. **CNDV**.

The logic used here is:

The Sum of letters in the letter cluster should be even.

Option 1: CNDV

$$CNDV = 3 + 14 + 4 + 22 = 43$$

This does not follow the logic.

Hence, **option 1** is the odd one out.

Question 55 :

In a certain code language, LOOK is coded as 2330, and BALL is coded as 1413. How will HELP be coded in that language?

Difficulty : Moderate

Average Time : 47 Seconds

Options :

1. 2417
2. 3461

2415

4. 2420

Solution :

The correct answer is **option 1** i.e. **2417**.

The logic used here is:

LOOK is coded as 2330

$$L = 13$$

$$O = 15$$

$$O = 15$$

$$K = 12$$

$$L + K = 11 + 12 = 23$$

$$O + O = 15 + 15 = 30$$

Similarly;

Code for the word HELP:

$$H = 8$$

$$E = 5$$

$$L = 12$$

$$P = 16$$

$$H + P = 8 + 16 = 24$$

$$E + L = 5 + 12 = 17$$

Code for HELP = 2417

Hence, **option 1** is the correct answer.

Question 56 :

Select the options figure in which the given figure is embedded (rotation is NOT allowed).

Difficulty : Moderate

Average Time : 52 Seconds

Options :

Solution :

The correct answer is **option 2** i.e.

The given figure is embedded in option 2, as shown below:

Hence, **option 2** is the correct answer.

Question 57 :

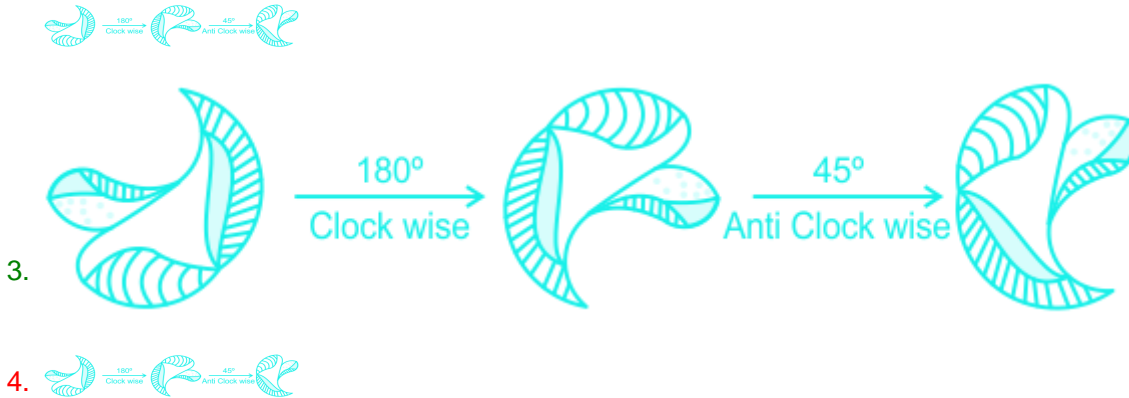

Select the correct water image of the given combination of numbers.

Difficulty : Moderate

Average Time : 71 Seconds

Options :

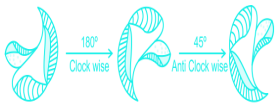

Solution :

The water image of the question figure is shown below:

In the water image of the given figure, the top and bottom of the figure get interchanged i.e. top becomes the bottom and the bottom becomes the top.

Hence, **option 3** is the correct answer.

Question 58 :

The sequence of folding a piece of paper (figures I and ii) and the manner in which the folded paper has been cut (figure iii) are shown in the following figures. Select the option that would most closely resemble the unfolded the figure (iii).

Difficulty : Moderate

Average Time : 85 Seconds

Options :

1.

- 1.
- 2.
- 3.
- 4.

Solution :

The correct answer is **option 1** i.e. .

After unfolding, the paper will appear as follows:

Hence, **option 1** is the correct answer.

Question 59 :

If the numbers 15 and 21 are interchanged, then which of the following equations will be correctly balanced?

Difficulty : Moderate

Average Time : 70 Seconds

**Options :**

1. $62 \div 31 - 21 + 15 \times 3 = 80$

2. $26 + 21 \times 15 \div 3 - 14 = 108$

3. $24 - 21 \div 3 + 15 - 7 = 23$

4. $63 \div 15 + 21 \times 5 - 4 = 74$

Solution :

The correct answer is **option 4** i.e. $63 \div 15 + 21 \times 5 - 4 = 74$.

Given condition: 15 and 21 are interchanged

Let us check all the options:

Option 1: $62 \div 31 - 21 + 15 \times 3 = 80$

The expression becomes:

$$= 62 \div 31 - 15 + 21 \times 3 = 80$$

= 50 is not equal to 80.

Option 2: $26 + 21 \times 15 \div 3 - 14 = 108$

The expression becomes:

$$= 26 + 15 \times 21 \div 3 - 14 = 108$$

= 117 is not equal to 108.

Option 3: $24 - 21 \div 3 + 15 - 7 = 23$

The expression becomes:

$$= 24 - 15 \div 3 + 21 - 7 = 23$$

= 33 is not equal to 23.

Option 4: $63 \div 15 + 21 \times 5 - 4 = 74$

The expression becomes:

$$= 63 \div 21 + 15 \times 5 - 4 = 74$$

= 74 is equal to 74.

Hence, **option 4** is the correct answer.

Question 60 :

Select the combination of letters that when sequentially placed in the blanks of the given series will complete the series. Q _ T _ S _ K _ R _ _ K _ R S

Difficulty : Moderate

Average Time : 73 Seconds

Options :

1. KRQTSKT

2. KRQTSQT

3. KRTRSQT

4. KRQTSQR

Solution :

The correct answer is **option 2** i.e. **K R Q T S Q T**.

The sequence is – **K R Q T S Q T**

Given sequence: Q _ T _ S _ K _ R _ _ K _ R S

Option 1: K R Q T S K T

Q K T R S / Q K T R S / K K T R S

Option 1 does not form a particular pattern.

Option 2: K R Q T S Q T

Q K T R S / Q K T R S / Q K T R S

Option 2 forms a particular pattern.

Hence, **option 2** is the correct answer.

Question 61 :

Select the correct combination of mathematical signs that can sequentially replace the * signs and balance the given equation. $34 * 17 * 54 * 18 * 6 * 56$

Difficulty : Moderate

Average Time : 81 Seconds

Options :

1. +, ÷, ×, , =

2. ÷, , +, ×, =

x, +, ÷, , =

4. ÷, , x, +, =

Solution :

The correct answer is **option 2** i.e. **÷, , +, x, =**.

Given equation: $34 * 17 * 54 * 18 * 6 * 56$

Let us check all the options:

Option 1: **+ , ÷ , x , , =**

The expression becomes:

$$= 34 + 17 \div 54 \times 18 - 6 = 56$$

= 33.66 is not equal to 56.

Option 2: **÷ , , + , x , =**

The expression becomes:

$$= 34 \div 17 - 54 + 18 \times 6 = 56$$

= 56 is equal to 56.

As we have found our answer, we need not check the other options.

Hence, **option 2** is the correct answer.

Question 62 :

If Arpita is the only daughter of Pritam's wife's mother's husband, then how is Arpita related to Pritam's son?

Difficulty : Moderate

Average Time : 62 Seconds

Options :

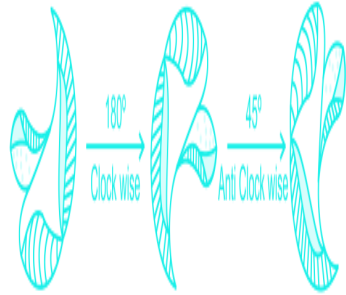

1. Sister
2. Paternal granddaughter
3. Daughter
4. Mother

Solution :

The correct answer is **option 4** i.e. **Mother**.

In the diagram shown;

Square shows males, the circle shows females, vertical lines show generations, a single horizontal line shows brothers or sisters, and double lines show a couple.

From the above figure, Arpita is the mother of Pritam's son.

Hence, **option 4** is the correct answer.

Question 63 :

Read the given statements and conclusions carefully. Assuming that the information given in the statements is true, even if it appears to be at variance with commonly known facts, decide which of the given conclusions logically follow(s) from the statements. Statements: No police officer is a doctor. Some doctors are specialists. All engineers are doctors.

Conclusions: I. Some engineers are police officers. II. No engineer is a police officer. III. Some doctors are engineers.

Difficulty : Moderate

Average Time : 70 Seconds

Options :

1. Only conclusion II follows.
2. Only conclusions I and II follow.
3. Either conclusion I or II and III follow(s).
4. Only conclusions II and III follow.

Solution :

The correct answer is **option 4** i.e. **Only conclusions II and III follow.**

The least possible Venn Diagram for the given statements is drawn below:

Conclusions:

- I. Some engineers are police officers **False** (It is possible, but no definite conclusion can be drawn.)
- II. No engineer is a police officer **True** (As all engineers are doctors, and no police officer is a doctor, so, no engineer is a police officer.)
- III. Some doctors are engineers **True** (As all engineers are doctors, so, some doctors are engineers.)

Hence, **Only conclusions II and III follow.**

Hence, **option 4** is the correct answer.

Question 64 :

Select the correct option that indicates the arrangement of the given words in a logical and meaningful order. 1. Displaying
2. Sketching 3. Colouring 4. Framing

Difficulty : Moderate

Average Time : 80 Seconds

Options :

1. 4, 3, 1, 2
2. 2, 1, 4, 3
3. 2, 3, 4, 1
4. 3, 4, 2, 1

Solution :

The correct answer is **option 3** i.e. **2, 3, 4, 1.**

In this question, you need to arrange the words in a logical and meaningful order. So, the arrangement is how to sketch and display.

1. Sketching
2. Colouring
3. Framing
4. Displaying

Hence, **option 3** is the correct answer.

Question 65 :

Select the number that can replace the question mark (?) in the given table. 5 16 77 8 19 149 13 12 ?

Difficulty : Moderate

Average Time : 44 Seconds

Options :

1. 153
2. 157
3. 155
4. 151

Solution :

The correct answer is **option 1** i.e. **153**.

The logic used here is:

Row 1: $(5 \times 16) - 3 = 80 - 3 = 77$

Row 2: $(8 \times 19) - 3 = 152 - 3 = 149$

Row 3: $(13 \times 12) - 3 = 156 - 3 = 153$

Hence, **option 1** is the correct answer.

Question 66 :

Five friends, Vishnu, Chirag, Raina, Kavya, and Surbhi, are sitting around a circular table, facing the center. Vishnu is to the immediate right of Kavya. Chirag is third to the left of Kavya. Surbhi is not adjacent to Chirag. Who is the second to the left of Kavya?

Difficulty : Moderate

Average Time : 52 Seconds

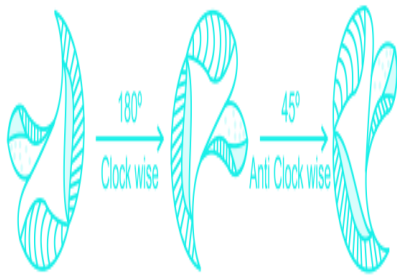

Options :

1. Chirag
2. Raina
3. Surbhi
4. Vishnu

Solution :

The correct answer is **option 2** i.e. **Raina**.

According to the question, the arrangement is as follows:

From the above arrangement, Raina is the second to the left of Kavya.

Hence, **option 2** is the correct answer.

Question 67 :

Select the option that is related to the third number in the same way as the second the number is related to the first number. 7: 56:: 11:?

Difficulty : Moderate

Average Time : 51 Seconds

Options :

1. 132
2. 77
3. 98
4. 101

Solution :

The correct answer is **option 1** i.e. 132.

The logic used here is:

$$7: 56$$

$$7^2 + 7 = 49 + 7 = 56$$

Similarly,

$$11: ?$$

$$11^2 + 11 = 121 + 11 = 132$$

Hence, **option 1** is the correct answer.

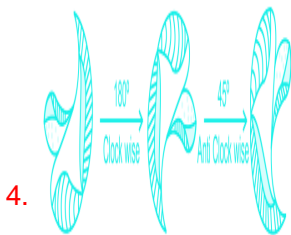

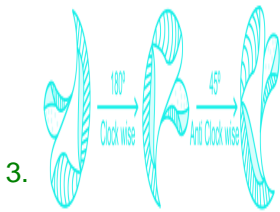

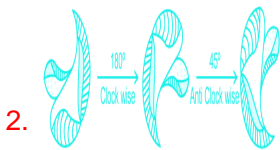

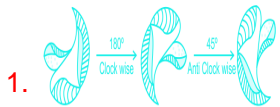

Question 68 :

Select the Venn Diagram that best represents the relationship between the following Human, Teacher, Clerk, Peon

Difficulty : Moderate

Average Time : 40 Seconds

Options :

Solution :

The correct answer is **option 3** i.e.

The possible Venn diagram is:

All clerks, humans, and teachers are humans.

Hence, the diagram given above shows the best relationship between them.

Hence, **option 3** is the correct answer.

Question 69 :

The different position of the same dice is shown, the six faces of which are numbered from 1 to 6. Select the number that will be on the face opposite to the one having 4.

Difficulty : Moderate

Average Time : 81 Seconds

Options :

1. 1
2. 5
3. 6
4. 2

Solution :

The correct answer is **option 2** i.e. **5**.

In both the dice, 2 and 3 are common. So, the rest of the faces are opposite to each other.

So, 5 is opposite to 4.

Hence, **option 2** is the correct answer.

Question 70 :

The average score (runs/match) of Mithali before the start of the women's national series was 45. In the women's national series of 10 matches, her total score was 500 runs. Find the total number of matches played by her till date, if her new average after the series is 47.5.

Difficulty : Moderate

Average Time : 50 Seconds

**Options :**

1. 38
2. 10
3. 30
4. 28

Solution :

The correct answer is **option 2** i.e. **10**

Let the number of matches played by Mithali before the series be x

Then the sum of her scores in x matches = $45x$

After 10 more innings, her total score becomes $(45x + 500)$ in $(x + 10)$ matches

Her new average score = 47.5

$$(45x + 500)/(x + 10) = 47.5$$

$$45x + 500 = 47.5x + 475$$

$$2.5x = 25$$

Thus, $x = 10$.

So, she has played **10** matches till the date.

Hence, **option 2** is the correct answer.

Question 71 :

Select the figure from among the given options mark (?) in the following series.

Difficulty : Moderate**Average Time : 53 Seconds****Options :**

2.

Solution :

The correct answer is **option 4** i.e.

The logic used here is:

1. Arrow is rotated by 90 degrees in the clockwise direction and is moved by one step forward in the next figure.
2. The rectangular box is rotated by 180 degrees and is moved by one step ahead in the next figure.

The series of figures:

Hence, **option 4** is the correct answer.

Question 72 :

Which of the option figures when rotated 180° clockwise and then 45° anticlockwise will result in the given option

Difficulty : Moderate

Average Time : 85 Seconds

Options :

- 1.
- 2.
- 3.
- 4.

Solution :

The correct answer is **option 1** i.e.

The figure in option 1 when first rotated by 180° in the clockwise direction and then 45° in the anticlockwise direction will give the given figure.

Hence, **option 1** is the correct answer.

Question 73 :

Select the number from among the given options that can replace the question mark (?) in the following series. 7, 11, 14, 25, 29, 55, ?

Difficulty : Moderate

Average Time : 79 Seconds

Options :

1. 59
2. 60
3. 95
4. 90

Solution :

The correct answer is **option 2** i.e. **60**.

Given series: 7, 11, 14, 25, 29, 55, ?

The series follows this pattern:

$$(7 \times 2) - 3 = 11$$

$$11 + 3 = 14$$

$$(14 \times 2) - 3 = 25$$

$$25 + 4 = 29$$

$$(29 \times 2) - 3 = 55$$

$$55 + 5 = 60$$

So, the next term in the series is **60**.

Hence, **option 2** is the correct answer.

Question 74 :

Select the option that is related to the third letter cluster in the same way as the second letter cluster is related to the first letter cluster. KCH: GXS:: TJD: ?

Difficulty : Moderate

Average Time : 51 Seconds

Options :

1. QMX
2. PQW
3. PNH
4. QNW

Solution :

The correct answer is **option 2** i.e. **PQW**.

The logic used here is:

KCH: GXS

K - 4 = G

Opposite of C = X

Opposite of H = S

Similarly,

TJD:?

T - 4 = P

Opposite of J = Q

Opposite of D = W

Hence, **option 2** is the correct answer.

Question 75 :

Select the letter cluster from among the given options that can replace the question mark (?) in the following series. DJRZ, HDZP, LXHF, PRPV, ?

Difficulty : Moderate

Average Time : 52 Seconds

Options :

1. TMXK
2. TLXM
3. ULYL

TLXL

Solution :

The correct answer is **option 4** i.e. **TLXL**.

Given series: DJRZ, HDZP, LXHF, PRPV, ?

The series follows this pattern:

DJRZ, HDZP

$$D + 4 = H$$

$$J - 6 = D$$

$$R + 8 = Z$$

$$Z - 10 = P$$

Similarly;

PRPV, ?

$$P + 4 = T$$

$$R - 6 = L$$

$$P + 8 = X$$

$$V - 10 = L$$

So, the next term in the series is **TLXL**.

Hence, **option 4** is the correct answer.

Question 76 :

In a certain code language, 'cool drinks available here' is written as 'bhu man juk lop', 'available lost objects here' is written as 'gan bhu nut juk', 'be cool search objects' is written as 'vax der man nut', and 'available drinks desert search' is written as 'but juk der lop'. How will 'lost drinks' be written in that language?

Difficulty : Moderate

Average Time : 72 Seconds

Options :

1. gan lop

2. nut gan

lop bhu

4. juk gan

Solution :

The correct answer is **option 1** i.e. **gan lop**.

'cool drinks available here' is written as 'bhu man juk lop', 'available lost objects here' is written as 'gan bhu nut juk', 'be cool search objects' is written as 'vax der man nut', and 'available drinks desert search' is written as 'but juk der lop'

Code for the word cool = man

Code for the word drinks = lop

Code for the word available = juk

Code for the word here = bhu

Code for the word lost = gan

Code for the word objects = nut

Code for the word be = vax

Code for the word search = der

Code for the word desert = but

So, code for the phrase 'lost drinks' is **'gan lop'**.

Hence, **option 1** is the correct answer.

Question 77 :

A man bought toffees at 3 for a rupee. How many toffees for a rupee must he sell to gain 50%?

Difficulty : Moderate

Average Time : 76 Seconds

Options :

1. 4

2. 1

3. 3

4. 2

Solution :

The correct answer is **option 4** i.e. **2**

Cost price of 3 toffiees = Rs 1

So, the CP of 1 toffiee = Rs $\frac{1}{3}$

For 50% profit SP of 1 toffiee = $(\frac{1}{3}) \times \frac{150}{100} = \text{Rs } \frac{1}{2}$

SP of 1 toffiee = Rs $\frac{1}{2}$

So, Sp of **2** toffiees = Rs 1

Question 78 :

Cords AB and CD of circle intersect externally at P. If AB = 7cm, CD = 1cm and PD = 5cm, then the lenth of PB (in cm) is:

Difficulty : Moderate

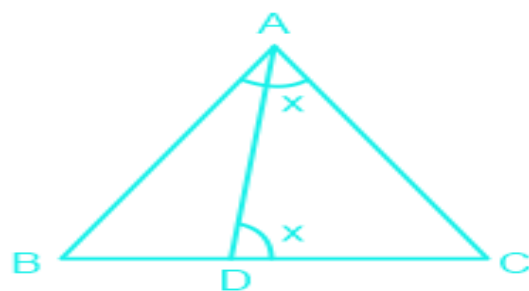

Average Time : 44 Seconds

Options :

1. 3
2. 10
3. 8
4. 5

Solution :

The correct answer is **option 1** i.e. **3**

Here AB = 7 cm, CD = 1 cm, PD = 5 cm and PB = x cm

$$PB \times PA = PD \times PC$$

$$x \times (x + 7) = 5 \times (5 + 1)$$

$$x^2 + 7x - 30 = 0$$

$$(x + 10) (x - 3) = 0$$

$x = -0$ can't possible

$PB = x = 3 \text{ cm}$

Question 79 :

In $\triangle ABC$, $AB = 7\text{cm}$, $BC = 10\text{cm}$, and $AC = 8\text{cm}$. If AD is the angle bisector of BAC , where D is a point on Bc , then DC (in cm) =?

Difficulty : Moderate

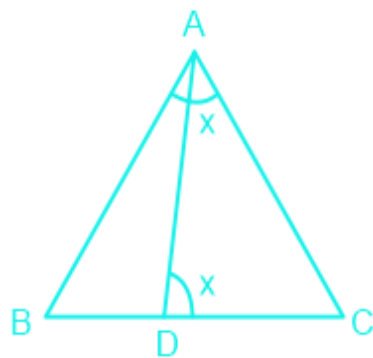

Average Time : 58 Seconds

Options :

1. $\frac{14}{3}$
2. $\frac{16}{3}$
3. $\frac{11}{3}$
4. $\frac{17}{3}$

Solution :

The correct answer is **option 2** i.e. $\frac{16}{3}$

$AB = 7, AC = 8$

$BD + DC = BC = 10$

$BD = 10 - DC$

Here, AD is the angle bisector of BAC .

So,

$AB/AC = BD/DC$

$7/8 = (10 - DC)/DC$

$$DC = 80/15 = 16/3$$

Question 80 :

A tyre has 3 punctures. The first puncture alone would have made the tyre flat in 9 minutes, the second alone would have done it in 18 minutes, the third alone would have done it in 6 minutes. If the air leaks out at a constant rate, then how long (in minutes) does it take for all the punctures together to make it flat?

Difficulty : Moderate**Average Time : 70 Seconds****Options :**

1. 2
2. 6
3. 4
4. 3

Solution :

The correct answer is **option 4** i.e. **3**

Let's the capacity of the tire = LCM of 9, 6, and 18 = 18

Efficiency of the first punctures = $18/9 = 2$

Efficiency of the Second punctures = $18/6 = 3$

Efficiency of the Third punctures = $18/18 = 1$

Total time = $18/(2 + 3 + 1) = 3$

Question 81 :

The average of sixteen numbers is 48. The average of the first six of these numbers is 45 and that of the last seven numbers is 53. The seventh and the eighth numbers are, respectively, 3 and 7 greater than the ninth number. What is the average of the ninth and seventh numbers?

Difficulty : Moderate**Average Time : 49 Seconds****Options :**

1. 41.5
2. 40.5
3. 42

39

Solution :

The correct answer is **option 2** i.e. **40.5**

Given:

The average of sixteen numbers = 48

The average of the first six of these numbers = 45 and

The average of the last seven numbers = 53

Explanation:

Let's assume the ninth number = x

Seventh number = $x + 3$

Eighth number = $x + 7$

Sum of the 16 numbers = $16 \times 48 = 768$

Sum of the first 6 numbers = $6 \times 45 = 270$

Sum of the last seven number = $7 \times 53 = 371$

Then,

$$x + x + 3 + x + 7 = 768 - (270 + 371)$$

$$3x + 10 = 768 - 641$$

$$x = \frac{117}{3} = 39$$

Ninth number $x = 39$

Seventh = $x + 3 = 42$

$$\text{Average} = \frac{(39 + 42)}{2} = \frac{81}{2} = 40.5$$

Hence the average of ninth and seventh number is 40.5.

Question 82 :

The given pie chart represents the percentage-wise distribution of the total number of vanilla cakes and chocolate cakes sold every day. The total number of cakes sold in a week = 10500. Study the pie chart and answer the question that follows. The ratio of number of vanilla cakes sold to the number of Chocolate cakes sold on Saturday is 4:3, the selling price of one Vanilla cake is Rs 8 and that of one chocolate cake is Rs 15, then the total amount earned (in Rs) by selling all Vanilla cakes and chocolate cakes on Saturday is:

Difficulty : Moderate

Average Time : 87 Seconds

Options :

1. 14880
2. 10488
3. 20000
4. 18480

Solution :

The correct answer is **option 4** i.e. **18480**

The total number of vanilla and chocolate cakes sold on Saturday = 16% of 10500 = 1680

The ratio of the vanilla and chocolate cakes on Saturday = 4 : 3

Vanilla : chocolate = $(1680/7) \times 4 : (1680/7) \times 3 = 960 : 720$

The total amount earned (in Rs) by selling all Vanilla cakes and chocolate cakes on Saturday = $960 \times 8 + 720 \times 15 = 7680 + 10800 = \text{Rs } 18480$

Question 83 :

In a given figure, O is the centre of the circle. $\angle POQ = 54^\circ$. What is the measure (in degree) of $\angle PRQ$?

Difficulty : Moderate

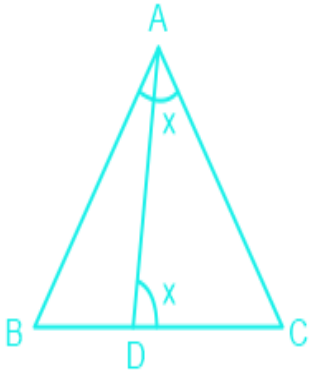

Average Time : 47 Seconds

Options :

1. 235
2. 137
3. 207
4. 153

Solution :

The correct answer is **option 4** i.e. **153°**

In the above circle $PSQ = POQ/2 = 54^\circ/2 = 27^\circ$

PQRS is a cyclic quadrilateral.

So $PSQ + PRQ = 180^\circ$

$PRQ = 180^\circ - 27^\circ = 153^\circ$

Question 84 :

A train covers a distance of 225 km in $(2\frac{1}{2})$ hours at a uniform speed. The time taken by the train (in hours) to cover a distance of 630 km at the same speed is:

Difficulty : Moderate

Average Time : 52 Seconds

Options :

1. 5
2. 7
3. 6
4. 4

Solution :

The correct answer is **option 2** i.e. 7

Given:

Distance = 225 km

Time = $(2\frac{1}{2})$

Concept Used:

Speed = Distance/time

**Explanation:**

$$\text{Speed} = 225/2.5 = 90 \text{ km/h}$$

$$\text{So, time is taken to travel 630 km} = 630/90 = \mathbf{7 \text{ hours}}$$

Question 85 :

A and B are two prime numbers such that $A > B$ and their LCM is 209. The value of $B^2 - A$ is:

Difficulty : Moderate**Average Time : 47 Seconds****Options :**

1. 111
2. 102
3. 121
4. 109

Solution :

The correct answer is **option 2** i.e. **102**

LCM of the two numbers = 209

So, the prime factors of the number = 19×11

We have given $A > B$, So $A = 19$ and $B = 11$

$$B^2 - A = 121 - 19 = \mathbf{102}$$

Question 86 :

What will be the total cost (in Rs) of polishing the curved surface of a wooden cylinder at rate of Rs 50 per m^2 , if its diameter is 70 cm and height is 6m?

Difficulty : Moderate**Average Time : 46 Seconds****Options :**

1. 624
2. 612
3. 660

**675****Solution :**

The correct answer is **option 3** i.e. **660**

The diameter of the wooden cylinder = 70 cm

Radius = $70/2 = 35$ cm = 0.35 m

Height = 6m

CSA of wooden cylinder = $2rh = 2 \times (22/7) \times 0.35 \times 6 = 13.2$ m²

Total cost = $50 \times 13.2 =$ Rs 660

Question 87 :

If 8A5146B is divisible by 88, then what is the value of AB?

Difficulty : Moderate**Average Time : 41 Seconds****Options :**

1. 15

2. 12

3. 9

4. 20

Solution :

The correct answer is **option 2** i.e. **12**

We have to find the value of AB in the given number 8A5146B.

The number is divisible by 88. So the number will also be divisible by 11 and 8.

If the difference of the sum of alternative digits of a number is divisible by 11, then that number is divisible by 11 completely.

If the last three digits of a number are divisible by 8, then the number is completely divisible by 8.

So, the possible last digit of the number is B = 4 = 8A51464

For 11 divisibility rule = $(8 + 5 + 4 + 4) - (A + 1 + 6) = 0$ or 11

$21 - 7 - A = 0$ or 11

A = 14 Can't possible

21 - 7 - A = 11

A = 3

So, AB = 4 × 3 = 12

Question 88 :

The value of $\left(\frac{48.3 \times [(4.95)^2 + 4.95 \times 13.25]}{(12.25^2 - (5.65)^2) \times 19.8}\right)$ is:

Difficulty : Moderate

Average Time : 63 Seconds

Options :

1. 17.5
2. 0.175
3. 1.75
4. 175

Solution :

The correct answer is **option 3** i.e. **1.75**

Explanation:

We have given $\left(\frac{48.3 \times [(4.95)^2 + 4.95 \times 13.25]}{(12.55^2 - (5.65)^2) \times 19.8}\right)$

$\left(\frac{48.3 \times 4.95(4.95 + 13.25)}{(12.55 + 5.65)(12.55 - 5.65) \times 19.8}\right)$

$\left(\frac{48.3 \times 4.95(18.20)}{(18.20)(6.9) \times 19.8}\right)$

$$34.65/19.8 = 1.75$$

Hence the value of $\left(\frac{48.3 \times [(4.95)^2 + 4.95 \times 13.25]}{(12.55^2 - (5.65)^2) \times 19.8}\right)$ is 1.75.

Question 89 :

The expression $(\cos 6 + \sin 6 - 1)(\tan 2 + \cot 2 + 2) + 3$ is equal to:

Difficulty : Moderate

Average Time : 48 Seconds

Options :

1. 0
2. 1

2

4. -1

Solution :

The correct answer is **option 1** i.e. **0**

$$(\cos^6 + \sin^6 - 1)(\tan^2 + \cot^2 + 2) + 3$$

Here put $\theta = 45^\circ$

$$= (\cos^6 45^\circ + \sin^6 45^\circ - 1)(\tan^2 45^\circ + \cot^2 45^\circ + 2) + 3$$

$$= \left\{ \left(\frac{1}{\sqrt{2}} \right)^6 + \left(\frac{1}{\sqrt{2}} \right)^6 - 1 \right\} (1 + 1 + 2) + 3$$

$$= \left\{ \left(\frac{1}{4} \right) - 1 \right\} (4) + 3$$

$$= \left(-\frac{3}{4} \right) (4) + 3$$

$$= 0$$

Question 90 :

The following bar graph shows the total number of youth (in lakhs) and the number of employed youth (in lakhs) in 5 states A, B, C, D and E. The number of employed youth in state B is what percentage of the number of employed youth in state E?

Difficulty : Moderate**Average Time : 56 Seconds****Options :**

1. 87%

2. 85%

3. 88.5%

4. 87.5%

Solution :

The correct answer is **option 4** i.e. **87.5%**

The total number of employed youth in State B = 7 lakhs

The total number of employed youth in State E = 8 lakhs

$$\text{Required percentage} = \left(\frac{7}{8} \right) \times 100 = 87.5\%$$

Question 91 :

From the point P on a level ground, the angle of elevation of the top of the tower is 30° . If the distance of point P from the foot of the tower is 510m, then 50% of the height of the tower (in m) is:

Difficulty : Moderate

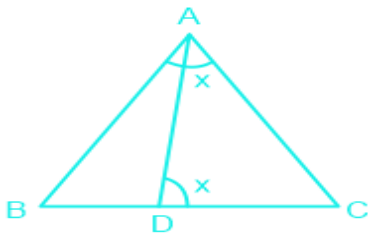

Average Time : 46 Seconds

Options :

1. 85
2. 86
3. $85\sqrt{3}$
4. $150\sqrt{3}$

Solution :

The correct answer is **option 3** i.e. $85\sqrt{3}$

In the above diagram,

$$PQ = 510 \text{ m}$$

Let's assume the height of the tower $QR = x \text{ cm}$

In $\triangle PQR$

$$\tan = QR/PQ$$

$$\tan 30^\circ = x/510$$

$$x = 510 \times \frac{1}{\sqrt{3}} = 170\sqrt{3}$$

$$\text{So, the 50% of the height of the tower} = 170\sqrt{3}/2 = 85\sqrt{3} \text{ m}$$

Question 92 :

The following bar graph shows the total number of youth (in lakhs) and the number of employed youth (in lakhs) in 5 states A, B, C, D and E. How many youth (in lakhs) are unemployed in states A and C taken together?

Difficulty : Moderate

Average Time : 69 Seconds

5 LAKH+ STUDENTS
Already enrolled with our selection focused courses.

30+ EXPERT INSTRUCTORS
Our instructors are the best in the industry

10000+ HOURS OF VIDEOS
All videos are well-explained for you to get every bit out of the videos

Options :

1. 2.8
2. 3
3. 2.25
4. 2.85

Solution :

The correct answer is **option 2** i.e. **3**

The total number of unemployed youth in state A = $12 - 10.5 = 1.5$ lakhs

The total number of unemployed youth in state C = $11.5 - 10 = 1.5$ lakhs

So, the total number of unemployed youth in state A and C = $1.5 + 1.5 = 3$ lakh

Question 93 :

In $\triangle ABC$, D is a point on side BC such that $\angle ADC = \angle BAC$. If CA = 15cm and CD = 9cm, then CB (in cm) = ?

Difficulty : Moderate

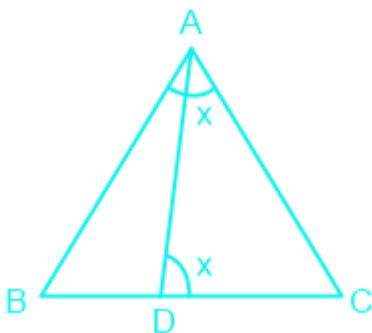

Average Time : 44 Seconds

Options :

1. 15
2. 25
3. 12
4. 10

Solution :

The correct answer is **option 2** i.e. **25**

The length of AC = 15 cm

The length of DC = 9 cm

In $\triangle ABC$ and $\triangle ADC$:

D = A Given

$\angle C = \angle C$ (Given)

So, $\triangle ABC \sim \triangle ADC$

$\frac{AC}{BC} = \frac{DC}{AC}$

$\frac{15}{BC} = \frac{9}{15}$

$BC = \frac{225}{9} = 25 \text{ cm}$

Question 94 :

if $2(\sqrt{2})x^3 - 3(\sqrt{3})y^3 = (\sqrt{2}x - \sqrt{3}y)(Ax^2 - Bxy + Cy^2)$, then the value of $(A^2 + B^2 + C^2)$ is:

Difficulty : Moderate

Average Time : 53 Seconds

Options :

1. 16
2. 11
3. 19
4. 18

Solution :

The correct answer is **option 3** i.e. **19**

We have given, $2(\sqrt{2})x^3 - 3(\sqrt{3})y^3 = (\sqrt{2}x - \sqrt{3}y)(Ax^2 - Bxy + Cy^2)$(1)

We know that $a^3 - b^3 = (a - b)(a^2 + ab + b^2)$

So, $2(\sqrt{2})x^3 - 3(\sqrt{3})y^3 = (\sqrt{2}x - \sqrt{3}y)(2x^2 + \sqrt{6}xy + 3y^2)$(2).

Comparing eq 1 and eq 2

A = 2

B = $-\sqrt{6}$

C = 3

So, the value of $(A^2 + B^2 + C^2) = (2^2 + (-\sqrt{6})^2 + 3^2) = 19$

Question 95 :

The given histogram shows the heights of 232 students of an athletic club and their numbers. Study the histogram carefully and answer the questions that follows. What is the average height (in cm) of 32 tallest students of the athletic club? Express your answer correct to one place of decimal.

Difficulty : Moderate**Average Time : 83 Seconds****Options :**

1. 165.4
2. 167.4
3. 166.4
4. 164.4

Solution :

The correct answer is **option 4** i.e. **164.4**

The number of students of 160 - 165 cm = 20

The number of students of 165 - 170 cm = 12

Avg height = $(160 + 165)/2 = 162.5$

$(165 + 170)/2 = 167.5$

So, the average height = $(20 \times 162.5 + 12 \times 167.5)/32 = 5260/32 = 164.375$ **164.4**

Question 96 :

P and Q start a shop with a capital of Rs 1,50,000 and Rs 4,50,000 respectively. After a year, out of the profit of Rs 1,60,000, P gets his share of profit plus some money that is not a part of the profit, as his salary. If P gets a total of RS 70,000, what is the salary (in RS) he received?

Difficulty : Moderate**Average Time : 52 Seconds****Options :**

1. 40,000
2. 30,000
3. 25,000

50,000

Solution :

The correct answer is **option 2** i.e. **30,000**

Explanation:

The ratio of the capital of P and Q = 1,50,000 : 4,50,000 = 1 : 3

The ratio of the profit will also same as the ratio of their capital.

So, the profit = 1 + 3 = 1,60,000

4 = 1,60,000

1 = 40,000

So, the salary of P = 70,000 - 40,000 = Rs **30,000**

Question 97 :

If $x + y + z = 18$, $xyz = 81$ and $xy + yz + zx = 90$, then find the value of .

Difficulty : Moderate

Average Time : 44 Seconds

Options :

1. 6
2. 12
3. 9
4. 10

Solution :

The correct answer is **option 1** i.e. **6**

$x + y + z = 18$

Square on both sides

$$x^2 + y^2 + z^2 + 2(xy + yz + zx) = 324$$

$$x^2 + y^2 + z^2 + 2(90) = 324$$

$$x^2 + y^2 + z^2 = 324 - 180 = 144$$

$$x^3 + y^3 + z^3 - 3xyz = (x + y + z)(x^2 + y^2 + z^2 - (xy + yz + zx))$$

$$x^3 + y^3 + z^3 - 3 \times 81 = 18 (144 - 90)$$

$$x^3 + y^3 + z^3 = 1215$$

So, the value of $\sqrt[4]{x^3 + y^3 + z^3 + xyz} = (1215 + 81)^{1/4} = 1296^{1/4} = (6^4)^{1/4} = 6$

Question 98 :

If $5 \sin \theta - 4 \cos \theta = 0$, $0^\circ < \theta < 90^\circ$, then the value of $\left(\frac{5 \sin \theta - \cos \theta}{5 \sin \theta + 3 \cos \theta}\right)$

Difficulty : Moderate**Average Time : 75 Seconds****Options :**

1. $\left(\frac{2}{7}\right)$
2. $\left(\frac{3}{7}\right)$
3. $\left(\frac{6}{7}\right)$
4. $\left(\frac{4}{7}\right)$

Solution :

The correct answer is **option 2** i.e. $\left(\frac{3}{7}\right)$

We have given,

$$5 \sin \theta - 4 \cos \theta = 0$$

$$5 \sin \theta = 4 \cos \theta$$

$$\sin \theta / \cos \theta = 4/5$$

So, the value of $\left(\frac{5 \sin \theta - \cos \theta}{5 \sin \theta + 3 \cos \theta}\right) = (5 \times 4 - 5) / (5 \times 4 + 3 \times 5) = 15/35 = 3/7$

Question 99 :

A shopkeeper marks an article at a price 20% higher than its cost price and allows 10% discount. Find his gain percentage.

Difficulty : Moderate**Average Time : 52 Seconds****Options :**

1. 9.5%
2. 8%
3. 9%

10%

Solution :

The correct answer is **option 2** i.e. **8%**

Let's assume the cost price = Rs 100

So, the marked price = $100 \times 120/100 = \text{Rs } 120$

After 10% discount, the selling price = $120 \times 90/100 = \text{Rs } 108$

Profit percentage = $(108 - 100)/100 = \mathbf{8\%}$

Question 100 :

A spends 65% of his income. His income is increased by 20.1% and the expenditure is increased by 20%. By what per cent (correct to one decimal place) does his saving increase or decrease?

Difficulty : Moderate

Average Time : 44 Seconds

Options :

1. Increase by 20.3%
2. Decrease by 17.7%
3. Increase by 21.5%
4. Decrease by 18.9%

Solution :

The correct answer is **option 1** i.e. **Increase by 20.3%**

Let's assume the income of A = 100

Income - Expenditure = Savings

$100 - 65 = 35$

His income increased by 20.1% = 120.1

Expenditure is increased by 20%. = 120% of 65 = 78

$120.1 - 78 = 42.1$

So, percentage increased in Savings = $(42.1 - 35)/35 \times 100 = \mathbf{20.3\%}$
