Options :

1. Let the wheels take you.
2. Let you take the wheels.
3. Let the wheels be taken by you.
4. Let wheels you take.

Solution :

The correct answer is **option 3** i.e. **Let the wheels be taken by you.**

- In the active voice, "**Take the wheels,**" the implied subject "**you**" is performing the action "**take**" on the object "**the wheels.**"
- In the passive voice, the sentence is rearranged to focus on "**the wheels**" as the subject of the sentence. The verb "**take**" is changed to "**be taken**" to indicate that the action is being done to the wheels, and "**by you**" specifies the agent performing the action.
- Using "**Let**" in the passive construction ("**Let the wheels be taken by you**") maintains the imperative mood (**command**) of the original sentence while transforming it into the passive voice.

"**Brakes**" refer to the mechanical devices used to slow or stop a vehicle, while "**breaks**" is a verb meaning to separate into parts or to interrupt continuity.

Hence, the correct sentence will be: "**While driving his car, he applied brakes in time to save himself and his family from an accident.**"

2. have to accept the New Normal
3. If things were not going to be normal
4. no error

Solution :

The correct answer is **option 3** i.e. **If things were not going to be normal**.

- This part of the sentence indeed contains an error because the tense used is incorrect for a hypothetical situation.
- The correct phrasing should use the present tense for a hypothetical future condition.

Solution :

The correct answer is **option 2** i.e. **as dead as a doornail.**

Moving like a worm: This phrase typically describes someone or something that is wriggling or squirming in a way that suggests weakness or ineffectiveness.

As dead as a doornail: It's often used to describe something that is no longer useful or relevant, making it an appropriate choice for describing an obsolete career.

Dead even: This phrase is commonly used in sports or competitions to describe a situation where two opponents have the same score or position, indicating a tie. It doesn't convey the idea of being obsolete.

Hanging by a thread: This idiom suggests a precarious or vulnerable situation where something is barely holding on and could collapse or fail at any moment.

Given the context of the sentence, which is about a career that is no longer relevant or useful, "**as dead as a doornail**" is the most appropriate choice because it vividly conveys the idea of something being completely defunct or obsolete.

1. When he saw the bear
2. No substitution
3. No sooner did he see
4. Hardly he saw the bear

Solution :

The correct answer is **option 1** i.e. **When he saw the bear**.

- The sentence describes a sequence of events that occurred in reaction to seeing the bear.
- The action of running, dropping the gun, and climbing the tree happens as a direct response to seeing the bear.
- "**When he saw the bear**" sets up the cause (seeing the bear) and then describes the resulting actions (running, dropping the gun, climbing).

NOTE:

When and **while** are both used to discuss time, but they serve different purposes and are used in different contexts:

Hence, the correct sentence will be: "**The family had visited many parts of Europe when the man was working with an international educational agency.**"

1. damsel in distress
2. they caught a tartar
3. cutting a cloth
4. casting pearls before swine

Solution :

The correct answer is **option 2** i.e. **they caught a tartar**.

The idiom "**they caught a Tartar**" is fitting because it conveys that the business partners underestimated the person and are now facing someone who is much more formidable and difficult to deal with than they initially thought.

Thus, it correctly substitutes the phrase "**I am more powerful than what they expected.**"

2. playfully
3. ambiguously
4. plausibly

Solution :

The correct answer is **option 1** i.e. **steadily**.

The narrator feels they have made some progress or achievement but recognizes that they still have a long way to go. They mention writing several novels without progress until eventually writing '**Ethan Frome**', which suggests a period of consistent, ongoing effort.

"**Steadily**" fits this context perfectly because it implies that the narrator continued their efforts in a consistent, determined manner despite challenges and without immediate success.

Question 24 :

Select the most appropriate option to fill in blank no. 4.

Difficulty : Moderate

Average Time : 87 Seconds

Options :

1. selectively
2. severely
3. intelligibly
4. legibly

Solution :

The correct answer is **option 2** i.e. **severely**.

The sentence before the blank states, "**I was trying to find out how to.**" This suggests that the author was attempting to figure out or understand how to proceed with writing novels.

If we insert "**severely**" into the blank, the sentence reads, "**I was severely trying to find out how to.**" This implies that the author was trying very intensely or harshly to understand how to proceed with writing novels.

While "**severely**" does convey a sense of intensity or seriousness, it seems slightly incongruent with the context of trying to understand or figure out how to write novels.

Select the most appropriate option to fill in blank no. 5.

Difficulty : Moderate

Average Time : 104 Seconds

Options :

1. adjudication
2. adulteration
3. alternate
4. alternative

Solution :

The correct answer is **option 4** i.e. **alternative**.

The passage describes the author's journey of writing and feeling like they had found their stride after struggling initially.

It specifically focuses on the author's experience with writing '**Ethan Frome**', a novel that was criticized for its structure.

The author is reflecting on the structure and mentioning that despite recognizing its challenges, they could not find any other structure (**alternative**) that would work better for the story.

"Alternative" directly refers to another option, which is what the author is talking about.

If today is Friday, which day will it be after 72 days?

Difficulty : Moderate

Average Time : 53 Seconds

Options :

1. Thursday
2. Sunday
3. Friday
4. Tuesday

Solution :

The correct answer is **option 2** i.e. **Sunday**.

After 72 days = $(7 \times 10) + 2 = 10$ weeks + 2 days

Here, we have 2 days left

After 1 day - Saturday

After 2 days - Sunday

Here, after 72 days it will be **Sunday**.
