

Ssc Cgl Tier I Previous Year Question Paper Overview

Here, you can solve all the questions asked in Ssc Cgl Tier I Previous Year Question Paper on 2019-06-10 in the Morning exam. The detailed solutions are also provided for every previous year question and some of these questions can be asked again in your Ssc Cgl Tier I exam. There are 100 questions in the exam and 60 minutes are provided for the Ssc Cgl Tier I exam. The Cutoff of the exam was 140 marks hence you should try to score at least 150 marks.

Ssc Cgl Tier I Previous Year Question Paper : Questions and Solutions

Question 1 :

Select the most appropriate ANTONYM of the given word. NOTORIOUS

Difficulty : Moderate

Average Time : 41 Seconds

Options :

1. infamous
2. vicious
3. reputable
4. disgraceful

Solution :

The correct answer is **option 3, i.e. 'reputable'**.

Word meaning	Usage	Synonym	Antonym
Notorious: famous or well known, typically for some bad quality or deed. Famous: known by many people, usually for something good. Hence, these two are antonyms.	For eg. He is a notorious lair.	blatant flagrant infamous popular	inconspicuous moral unknown

Meaning of other words:-

Infamous: are well known for some bad quality or deed.

Vicious: are deliberately cruel and violent.

Disgraceful: are shockingly unacceptable.

Question 2 :

Select the correctly spelt word.

Difficulty : Moderate

Average Time : 75 Seconds

Options :

1. adolescence
2. adolesense
3. adolescence
4. adolescance

Solution :

The correct answer is **option 3, i.e. 'adolescence'**.

Word meaning	Usage
Option 3 has the correct spelling i.e. adolescence. Adolescence mean the period following the onset of puberty during which a young person develops from a child into an adult.	Their children are on the verge of adolescence.

Question 3 :

Select the most appropriate ANTONYM of the given word. SACRED

Difficulty : Moderate

Average Time : 50 Seconds

Options :

1. profound
2. perpetual
3. profane

pious

Solution :

The correct answer is **option 3, i.e. 'profane'**.

Word meaning	Usage	Synonym	Antonym
<p>Sacred: connected with god or dedicated to a religious purpose and so deserving veneration.</p> <p>Profane: not relating to that which is sacred or religious, secular.</p> <p>Hence, these two are antonyms.</p>	<p>Islam's most sacred shrine is at Mecca in Saudi Arabia.</p>	<p>antiseptic</p> <p>arid</p> <p>barren</p> <p>bleak</p>	<p>cheerful</p> <p>contaminated</p> <p>fertile</p> <p>fruitful</p>

4. We had seen her sitting in the last row.

Solution :

The correct answer is **option 2**, i.e. 'we saw her sitting in the last row'.

Concept/Grammar rules	Application
The given passive voice contains Was/were + V3 . It should be converted to active voice as past indefinite tense as below: Subject + V2 + object + other words.	Therefore, correct sentence will be 'we saw her sitting in the last row'.

Question 38 :

Select the most appropriate option to fill in the blank. Charles Dickens was different in his style of writing from most of his _____ in the Victorian era.

Difficulty : Moderate**Average Time : 67 Seconds****Options :**

1. contemporaries
2. critics
3. confidants
4. cronies

Solution :

The correct answer is **option 1**, i.e. 'contemporaries'.

Meaning of words	Most appropriate word
------------------	-----------------------

<p>Contemporaries: a person living at the same time or of approximately the same age as another.</p>	<p>In this sentence, we are talking about the time, era.</p> <p>Hence, the most appropriate word here would be 'contemporaries'.</p>
<p>Critics: a person who expresses an unfavourable opinion of something.</p> <p>Confidants: a person with whom ones shares a secret or private matter, trusting them not to repeat it to others.</p> <p>Cronies: a close friend or companion, best friend.</p>	

Question 39 :

Select the word which means the same as the group of words given. One who is indifferent to art and culture

Difficulty : Moderate

Average Time : 69 Seconds

Options :

1. philistine
2. philanderer
3. scientist
4. cynic

Solution :

The correct answer is **option 1, i.e. 'philistine'**.

Concept/Grammar rules	Meaning of other words
-----------------------	------------------------

Philistine: a person who is guided by materialism and is usually disdainful of intellectual or artistic values.

Hence, it is the most appropriate one word for the given phrase.

Philanderer: a man who has sexual relations with many women especially a man who is unfaithful to his wife or partner.

Scientist: a person who is studying or has expert knowledge of one or more of the natural or physical sciences.

Cynic: a person who has negative opinions about other people and about the things people do.

Question 40 :

Select the correctly spelt word.

Difficulty : Moderate

Average Time : 65 Seconds

Options :

1. maintainence
2. maintenance
3. maintenance
4. mentainance

Solution :

The correct answer is **option 3**, i.e. 'maintenance '.

Correct spelling	Usage
The word in option 3 has the correct spelling. Maintenance: The process of preserving a condition or situation or the state of being preserved.	The house will need scheduled maintenance but will remember when and will ask you for permission.

Question 41 :

In the sentence identify the segment which contains the grammatical error. Most disputes can be solved amicably unless one are rigid.

Difficulty : Moderate

Average Time : 53 Seconds

Options :

Most disputes

2. unless one are
3. not rigid
4. can be solved amicably

Solution :

The correct answer is **option 2**, i.e. 'unless one are'.

Concept/Grammar rules	Application
'Unless one are' has error as 'one' is singular noun and should be followed by singular verb.	Hence, 'is' should used in place of 'are' Correct sentence: Most disputes can be solved amicably unless one is rigid.

Question 42 :

Given below are four jumbled sentences. Select the option that gives their correct order. A. The students often go about their business, singing along in the corridors. B. But for the students of St. Ambrose High School, it no longer dictates their day. C. A bell can sound gloomy or cheerful depending on when it is rung. D. It has been scrapped in favor of music which now breaks up the timetable of the school

Difficulty : Moderate

Average Time : 74 Seconds

Options :

1. BDAC
2. CBDA
3. ACBD
4. CADB

Solution :

The correct answer is **option 2**, i.e. 'CBDA'.

Concept/Grammar rules	Application
-----------------------	-------------

The first sentence always introduces a topic and is independent in its meaning.

Sentence C introduces the topic **'the sound of bell'**.

Sentence B should be followed by **C** as it describes how the bell no more controls the day of students in St. Ambrose high school.

As per the given options only option B has the starting pair **CB**.

Hence, 'CBDA' is the correct answer.

Question 43 :

Select the most appropriate option to substitute the underlined segment in the given sentence. If no substitution is required, select No improvement. Though many European traders visit Puducherry in the sixteenth century onwards , what remains today is a relic of its French past.

Difficulty : Moderate

Average Time : 71 Seconds

Options :

1. trader visit Puducherry from the sixteenth century onwards
2. No improvement
3. traders visited Puducherry in a sixteenth century onward
4. traders visited Puducherry from the sixteenth century onwards

Solution :

The correct answer is **option 4**, i.e. **'traders visited Puducherry from the sixteenth century onwards'**.

Concept/Grammar rules	Application
<p>In the first sentence, a event of the past is being explained which is being continued till date because the word onwards is used.</p> <p>Also, the word 'onwards' which means 'forward in time' signifies that the preposition 'from' should be used.</p>	<p>Hence, 'visited' should be in place of 'visit' and 'in' should be replaced with 'from'</p> <p>Correct sentence will be:</p> <p>Though many European traders visited Puducherry in the sixteen century onwards, what remains today is a relic of its French past.</p>

Comprehension :

In the following passage, some words have been deleted. Fill in the blanks with the help of the alternatives given. Select the most appropriate option for each blank. Perhaps India should listen to her (1)_____ sages who taught the importance (2)_____ balance. This means we should be (3)_____ not to take anything too far (4)_____ be too radical. The unfortunate results of (5)_____ too far are obvious in the environmental degradation.

Question 44 :

Select the most appropriate option to fill in blank No. (1).

Difficulty : Moderate

Average Time : 97 Seconds

Options :

1. initial
2. antique
3. extinct
4. ancient

Solution :

The correct answer is **option 4, i.e. 'ancient'**.

Concept/Grammar rules	Application
<p>Ancient: of or in time long past, especially before the end of the Western Roman Empire</p>	<p>Since the sentence is about the sages from the old time, it is clear that ancient will be used here.</p> <p>Complete sentence: Perhaps India should listen to her ancient sages.</p>
<p>Meaning of other words:</p> <p>Initial: existing or occurring at the beginning.</p> <p>Antique: having a high value because of age and quality.</p> <p>Extinct: having no living representative; having died out.</p>	

Comprehension :

In the following passage, some words have been deleted. Fill in the blanks with the help of the alternatives given. Select the most appropriate option for each blank. Perhaps India should listen to her (1)_____ sages who taught the importance (2)_____ balance. This means we should be (3)_____ not to take anything too far (4)_____ be too radical. The unfortunate results of (5)_____ too far are obvious in the environmental degradation.

Question 45 :

Select the most appropriate option to fill in blank No. (2).

Difficulty : Moderate**Average Time : 85 Seconds****Options :**

1. by
2. of
3. for
4. in

Solution :

The correct answer is **option 2, i.e. 'of'**.

Concept/Grammar rules	Application
<p>OF is used to indicate reference.</p> <p>BY is used to show who or what did an action.</p> <p>FOR is used to specify a period of time.</p> <p>IN is used when something is located inside of a defined space.</p>	<p>We can say that, 'the importance of balance' is the correct phrase.</p> <p>Complete sentence:</p> <p>Who taught the importance of balance.</p>

Comprehension :

In the following passage, some words have been deleted. Fill in the blanks with the help of the alternatives given. Select the most appropriate option for each blank. Perhaps India should listen to her (1)_____ sages who taught the importance (2)_____ balance. This means we should be (3)_____ not to take anything too far (4)_____ be too radical. The unfortunate results of (5)_____ too far are obvious in the environmental degradation.

Question 46 :

Select the most appropriate option to fill in blank No. (3).

Difficulty : Moderate**Average Time : 80 Seconds****Options :**

caretaker

2. careless

3. careful

4. carefree

Solution :

The correct answer is **option 3**, i.e. 'careful'.

Meaning of words	Application
<p>Careful: done with or showing thought and attention.</p> <p>Caretaker: a person employed to look after people or animals.</p> <p>Careless: not concerned or worried about.</p> <p>Carefree: to be happy and relaxed.</p>	<p>After the blank, 'not to take anything...' is used. That means something should be done carefully. Hence, 'careful' is the correct word here.</p> <p>Complete sentence: This means we should be careful not to...</p>

Comprehension :

In the following passage, some words have been deleted. Fill in the blanks with the help of the alternatives given. Select the most appropriate option for each blank. Perhaps India should listen to her (1)_____ sages who taught the importance (2)_____ balance. This means we should be (3)_____ not to take anything too far (4)_____ be too radical. The unfortunate results of (5)_____ too far are obvious in the environmental degradation.

Question 47 :

Select the most appropriate option to fill in blank No. (4).

Difficulty : Moderate

Average Time : 81 Seconds

Options :

1. but

2. so

3. or

4. otherwise

Solution :

The correct answer is **option 3, i.e. 'or'**.

Concept/Grammar rules	Application
<p>Radical is used here after the blank which means 'advocating a complete political or social change; representing or supporting an extreme or progressive section of a political party'.</p> <p>Here, two sentences need to be joined and when both sentences convey similar meaning, 'OR' should be used.</p>	<p>Hence, option 3 is the correct answer.</p> <p>Complete sentence: we need not go to far or be too radical.</p>

Comprehension :

In the following passage, some words have been deleted. Fill in the blanks with the help of the alternatives given. Select the most appropriate option for each blank. Perhaps India should listen to her (1)_____ sages who taught the importance (2)_____ balance. This means we should be (3)_____ not to take anything too far (4)_____ be too radical. The unfortunate results of (5)_____ too far are obvious in the environmental degradation.

Question 48 :

Select the most appropriate option to fill in blank No. (5).

Difficulty : Moderate

Average Time : 79 Seconds

Options :

1. venturing
2. pioneering
3. risking
4. climbing

Solution :

The correct answer is **option 1, i.e. 'venturing'**.

Meaning of words	Application

Venturing: dare to do or say something that may be considered audacious.

Pioneering: involving new ideas or method.

Risking: act in such a way as to bring about the possibility of (an unpleasant or unwelcome event).

Climbing: go upwards.

Here, the sentence shows the results of taking a risky course of action are obvious in environmental degradation.

Hence, Venturing will be the correct word here.

Complete sentence:

The unfortunate results of venturing

Question 49 :

Select the most appropriate option to fill in the blank. She performs different roles very convincingly as she is a very _____ actor.

Difficulty : Moderate

Average Time : 67 Seconds

Options :

1. versatile
2. virtuous
3. verbose
4. voracious

Solution :

The correct answer is **option 1, i.e. 'versatile'**.

Meaning of words	Application
<p>Versatile: able to change easily from one activity to another or able to be used for many different.</p> <p>Virtuous: having good moral qualities and behavior.</p> <p>Verbose: using or expressed in more words than are needed.</p> <p>Voracious: engaging in an activity with great eagerness or enthusiasm.</p>	<p>Here, the phrase 'performs different roles' signifies that she is a versatile actor.</p> <p>Complete sentence:</p> <p>She performs different roles very convincingly as she is a very versatile actor.</p>

Question 50 :

In the sentence identify the segment which contains the grammatical error. In the northern suburbs of Bengaluru, home to the bulk of the information technology industry, the water crisis is even worst.

Difficulty : Moderate**Average Time : 70 Seconds****Options :**

1. is even worst
2. the water crisis
3. In the northern suburbs
4. home to the bulk of

Solution :The correct answer is **option 1, i.e. 'is even worst'**.

Concept/Grammar rules	Application
Here ' worst ' is the 3rd degree of adjective which is not correct. ' Worse ' which is second degree of adjective should be used here as it is used for comparison.	The correct sentence will be: 'In the northern suburbs of Bengaluru, home to the bulk of information technology industry, the water crisis is even worse.'

Question 51 :

Select the most appropriate meaning of the underlined idiom in the given sentence. It is unfortunate that most people in the country are still living from hand to mouth.

Difficulty : Moderate**Average Time : 66 Seconds****Options :**

1. Saving for the future generations
2. Earning wealth by selfish means
3. Doing manual labour
4. Consuming daily what little is earned

Solution :The correct answer is **option 4 i.e. Consuming daily what little is earned.**

The meaning of the given idiom is-

Living from hand to mouth- to be extremely poor, having only enough money to provide food and shelter each month.

Example- My father earned very little and there were four kids, so we lived from hand to mouth.

As the meaning of the given idiom is the same as the chosen option it will be the correct answer.

Question 52 :

Select the most appropriate option to substitute the underlined segment in the given sentence. If no substitution is required, select 'No improvement'. The India consensus study highlight a benefits by adding domestic violence prevention approaches to current government policy.

Difficulty : Moderate**Average Time : 64 Seconds****Options :**

1. highlight a benefit in addition
2. No improvement
3. highlights the benefits of adding
4. highlight the benefits from added

Solution :

The correct answer is **option 3**, i.e. '**highlights the benefits of adding**'.

Concept/Grammar rules	Application
Here, the word ' benefits ' is plural word. The article ' a ' used before it is wrong. Also, the use of preposition ' by ' also wrong here.	Hence, the article ' the ' should be used and ' by ' must be replaced with ' of ' Hence, correct sentence: The India consensus study highlights the benefits of adding domestic violence prevention approaches to current government policy.

Question 53 :

A square paper is folded and cut as shown below. How will it appear when unfolded?

Difficulty : Moderate**Average Time : 69 Seconds****Options :**

2.

3.

4.

Solution :

Correct Answer is **option 2**

Concept	Understanding
Paper unfolding	Observing the figures in answer figures, Figure will appear as in option 2 when unfolded.

Question 54 :

Select the set in which the numbers are related in the same way as the numbers of the following set. (6, 39, 7) (3, 15, 2)

Difficulty : Moderate

Average Time : 118 Seconds

Options :

1. (9, 36, 14)

5 LAKH+ STUDENTS
Already enrolled with our
selection focused courses.

30+ EXPERT INSTRUCTORS
Our instructors are the best

10000+ HOURS OF VIDEOS
All videos are well-explained for you
to get every bit out of the videos

(3, 75, 11)

3. (10, 71, 11)

4. (8, 60, 12)

Solution :

The correct answer is **Option 4** i.e. **(8, 60, 12)**

Understanding

Logic:

The middle number is the third multiple of the number obtained by adding 1st and 3rd numbers.

(6, 39, 7)

Here,

$$6 + 7 = 13$$

$$13 \times 3 = 39$$

Option 1:

(9, 36, 14)

$$9 + 14 = 23$$

$$23 \times 3 = 69$$

Option 2:

(3, 75, 11)

$$3 + 11 = 14$$

$$14 \times 3 = 42$$

Option 3:

(10, 71, 11)

$$10 + 11 = 21$$

$$21 \times 3 = 63$$

Option 4:

(8, 60, 12)

$$8 + 12 = 20$$

$$20 \times 3 = 60$$

The correct answer is **(8, 60, 12)**.

Question 55 :

In the following question, select the related word pair from the given alternatives. Commodity Exchange : Commodity

Difficulty : Moderate

Average Time : 64 Seconds

Options :

1. Treatment : Disease
2. Correspondence : letter
3. Debate : Discussion
4. Marching : Traffic

Solution :

Correct Answer is option 2 i.e. "Correspondence : letter"

Understanding

As commodity is exchanged in commodity exchange, letters are exchanged in correspondence.

Question 56 :

How many triangles are there in the following figure?

Difficulty : Moderate

Average Time : 39 Seconds

Options :

1. 18
2. 24
3. 14
4. 22

Solution :

The correct answer is **option 4** i.e. **22**

Understanding

The triangles formed are - ABC, ABF, ACF, ACG, ABG, BFG, CFG, BCG, FIG, FJG, FDE, FDG, FGE, FEH, FDH, DEH, DGH, EGH, JGE, IDG, BIF, CFJ

Total number of triangles is: **22**

Question 57 :

Two statements are given, followed by three conclusions numbered I, II and III. Assuming the statements to be true even if they seem to be at variance with commonly known facts, decide which of the conclusions logically follow(s) from the statements. Statements: Some carpenters are technicians. All technicians are mechanics. Conclusions: I. Some carpenters are mechanics. II. Some mechanics are technicians. III. All carpenters are mechanics.

Difficulty : Moderate

Average Time : 65 Seconds

Options :

1. None of the conclusions follows
2. Only conclusions I and II follow
3. Only conclusion I follows
4. Only conclusions II and III follow

Solution :

The correct answer is **option 2** i.e. **Only conclusions I and II follows.**

Understanding

We can draw this venn diagram with the help of given statements:

Conclusions:

I. Some carpenters are mechanics. – **True**

(Some carpenters are technicians and all technicians are mechanics, so part of carpenter which is technician is also mechanic).

II. Some mechanics are technicians. – **True**

(All technicians are mechanics, so some mechanics are technicians is true).

III. All carpenters are mechanics. – **False**

(This is possible but not definite).

Hence, **Only conclusions I and II follows.**

Question 58 :

Three of the following four words are alike in a certain way and one is different. Pick the odd word out.

Difficulty : Moderate

Average Time : 78 Seconds

Options :

1. Hinder
2. Arrest
3. Impede
4. Steal

Solution :

The correct answer is **option 4** i.e. **Steal**

Understanding

Hinder, Arrest and Impede are synonyms and means to restrict or prevent.

Hence, **Steal** is the odd word.

Question 59 :

In a family of seven persons, B is the brother of A and the son of C. D is the son-in-law of C, who has two grandchildren, E and F. A is the mother of F, who is the niece of G. E is the son of G. If C has two children, how is E related D?

Difficulty : Moderate

Average Time : 55 Seconds

Options :

1. Son
2. Cousin
3. Nephew
4. Brother-in-law

Solution :

The correct answer is **option 3** i.e. **Nephew**

Understanding	Application
<p>Symbols in family tree:</p> <p>"+" represents 'Male'</p> <p>"-" represents 'Female'</p> <p>"" represents 'Siblings'</p> <p>"" represents 'Couple'</p> <p>"" represents 'Generation gap'</p>	<p>From the given data, Family tree can be drawn:</p> <p>As shown in the figure: E is the nephew of D.</p>

Question 60 :

Which two signs should be interchanged in the following equation to make it correct? $24 - 12 \div 4 + 8 \times 2 = 11$

Difficulty : Moderate

Average Time : 64 Seconds

Options :

1. + and -
2. + and \times
3. - and \div
4. + and \div

Solution :

The correct answer is **Option 1** i.e. + and -

Understanding

Given equation: $24 - 12 \div 4 + 8 \times 2 = 11$

1) + and -

The equation becomes:

$$24 + 12 \div 4 - 8 \times 2 = 11$$

$$27 - 16 = 11$$

$$11 = 11$$

2) + and \times

The equation becomes:

$$24 - 12 \div 4 \times 8 + 2 = 11$$

$$24 - 24 + 2 = 11$$

$$2 = 11$$

3) - and \div

The equation becomes:

$$24 \div 12 - 4 + 8 \times 2 = 11$$

$$2 - 4 + 16 = 11$$

$$14 = 11$$

4) + and \div

The equation becomes:

$$24 - 12 + 4 \div 8 \times 2 = 11$$

$$24 - 12 + 1 = 11$$

$$13 = 11$$

Question 61 :

Select the figure that will come next in the following figure series.

Difficulty : Moderate

Average Time : 67 Seconds

Options :

2.

3.

4.

Solution :

The correct answer is **option 4**

Understanding	Application
<p>Pattern:</p> <p>The whole figure is being rotated by 45° in each step and the 3 small symbols in the figure are being interchanged each time.</p>	<p>With this pattern, we can see that the figure in option 4 will be the next figure.</p>

Question 62 :

Select the number-pair in which the two numbers are related in the same way as are the two numbers of the following number-pair. 24 : 56

Difficulty : Moderate

Average Time : 70 Seconds

Options :

12 : 36

2. 18 : 48

3. 15 : 40

4. 9 : 21

Solution :The correct answer is **option 4** i.e. **9 : 21**

Understanding	Application
$X : Y = X : (X \times 7/3)$	Similarly;
24 : 56	For 9 : 21
$56 = 24 \times 7/3$	$21 = 9 \times 7/3$

Question 63 :

Select the set in which the numbers are related in the same way as are the numbers of the following set. (17, 12, 7)

Difficulty : Moderate

Average Time : 43 Seconds

Options :

1. (39, 28, 19)

2. (15, 19, 23)

3. (23, 32, 39)

4. (42, 34, 27)

Solution :The correct answer is **Option 2** i.e. **(15, 19, 23)**

Understanding	Application
2nd number = (1st number + 3rd number)/2	Similarly, for (15, 19, 23)
(17, 12, 7)	$(15 + 23)/2 =$
$12 = (17 + 7)/2$	$38/2 = 19$

Question 64 :

'Geology' is related to 'Earth' in the same way as 'Cytology' is related to _____.

Difficulty : Moderate

Average Time : 44 Seconds

Options :

1. Life
2. Plants
3. Cells
4. Organism

Solution :

The correct answer is **option 3** i.e. **Cells**

Understanding

Geology is the study of Earth.

Similarly, Cytology is the study of Cells.

Question 65 :

Three of the following four letter-clusters are alike in a certain way and one is different. Pick the odd one out.

Difficulty : Moderate

Average Time : 43 Seconds

Options :

1. MLK
2. XVW
3. TSR
4. DCB

Solution :

The correct answer is **option 2** i.e. **XVW**

Understanding

MLK: M - 1 = L; M - 2 = K;

XVW: X - 2 = V; X - 1 = W;

TSR: T - 1 = S; T - 2 = R;

DCB: D - 1 = C; D - 2 = B

Hence, XVW is the odd one.

Question 66 :

Arrange the following words in a logical and meaningful order. 1. Child 2. Marriage 3. Infant 4. Employment 5. Education

Difficulty : Moderate

Average Time : 49 Seconds

Options :

1. 4, 1, 3, 5, 2
2. 3, 5, 2, 4, 1
3. 3, 1, 5, 4, 2
4. 5, 2, 4, 1, 3

Solution :

Correct Answer is option 3 i.e. "3, 1, 5, 4, 2"

Concept	Application
Chronology of a human development	Correct order is: 3. Infant, 1. Child, 5. Education, 4. Employment, 2. Marriage

Question 67 :

In a code language, PASTEUR is coded as TPRUASE. How would SEVENTY be coded in that language?

Difficulty : Moderate

Average Time : 89 Seconds

Options :

1. NSYTEVN

ENVETYS

3. ESYTEVN

4. ESYETNV

Solution :The correct answer is **option 3** i.e. **ESYTEVN**.**Understanding**

Sequence of the letters has been changed.

Pattern:

SEVENTY
ESYTEVN

Similarly:

SEVENTY
ESYTEVN

Hence, **ESYTEVN** is the correct answer.**Question 68 :**

If HEAD is coded as 37 and BANK is coded as 57, then how will KITE be coded as?

Difficulty : Moderate**Average Time : 56 Seconds****Options :**

1. 69

2. 87

3. 76

4. 91

Solution :

The correct answer is **option 4** i.e. **91**

Understanding	Application
<p>The alphabets from A to Z takes numerical position value from 1 to 26.</p> <p>Code for each word = (Sum of numerical position values of all alphabets) $\times 2 + 1$</p> <p>HEAD is coded as 37:</p> $H (8) + E (5) + A (1) + D (4) = 18$ $18 \times 2 + 1 = 37$ <p>And</p> <p>BANK is coded as 57:</p> $B (2) + A (1) + N (14) + K (11) = 28$ $28 \times 2 + 1 = 57$	<p>Similarly, for KITE:</p> $K (11) + I (9) + T (20) + E (5) = 45$ $45 \times 2 + 1 = \mathbf{91}$

Question 69 :

Select the option that is related to the third letter-cluster in the same way as the second letter-cluster is related to the first letter-cluster. DGIL : WTRO ? FHKM : ?

Difficulty : Moderate

Average Time : 61 Seconds

Options :

1. USPN
2. QPLJ
3. WTSP
4. TRON

Solution :

Correct Answer is option 1 i.e.USPN

Concept	Understanding	Application
<p>The alphabets from A to Z takes numerical position value from 1 to 26.</p> <p>Reverse pair: two alphabets form reverse pair if the sum of their numerical position values is 27.</p>	<p>DGIL : WTRO</p> <p>Here,</p> <p>$D (4) + W (23) = 27$</p> <p>$G (7) + T (20) = 27$</p> <p>$I (9) + R (18) = 27$</p> <p>$L (12) + O (15) = 27$</p> <p>Hence, these are reverse pairs.</p>	<p>Similarly, for FHKM</p> <p>$27 - F (6) = 21 (U)$</p> <p>$27 - H (8) = 19 (S)$</p> <p>$27 - K (11) = 16 (P)$</p> <p>$27 - M (13) = 14 (N)$</p> <p>Hence, USPN is the correct answer.</p>

Question 70 :

Which number will replace the question mark (?) in the following series? 16, 24, 36, ?, 81

Difficulty : Moderate

Average Time : 173 Seconds

Options :

1. 52
2. 54
3. 61
4. 58

Solution :

Correct Answer is option 2 i.e. 54

Concept	Application

Pattern:	16, 24, 36, ?, 81
Next term = Previous term \times 1.5	Here, $16 \times 1.5 = 24$ $24 \times 1.5 = 36$ Next term = $36 \times 1.5 = 54$

Question 71 :

Three of the following four numbers are alike in a certain way and one is different. Pick the number that is different from the rest.

Difficulty : Moderate

Average Time : 53 Seconds

Options :

1. 953
2. 312
3. 523
4. 734

Solution :

The correct answer is **option 1** i.e. **953**

Understanding

1st digit is the sum of other two digits.

$$312: 3 = 1 + 2$$

$$523: 5 = 2 + 3$$

$$734: 7 = 3 + 4$$

But

$$953: 9 = 5 + 3$$

Hence, 953 is the correct answer.

Question 72 :

The average of 9 numbers is 40. If the average of the first five numbers is 38 and that of the last five is 50, then what is the fifth number?

Difficulty : Moderate

Average Time : 47 Seconds

Options :

1. 78
2. 90
3. 80
4. 84

Solution :

The correct answer is **option 3** i.e. **80**

Understanding	Application
Average of 9 numbers = 40	Sum of all 9 numbers = $9 \times 40 = 360$
Average of first 5 = 38	Sum of first 5 numbers = $5 \times 38 = 190$
Average of last 5 = 50	Sum of last 5 numbers = $5 \times 50 = 250$
	5 th number = $(190 + 250) - 360$
	= $440 - 360 = 80$

Question 73 :

Select the mirror image of the given figure when the mirror is placed to the right of the figure.

Difficulty : Moderate

Average Time : 79 Seconds

Options :

2.

3.

4.

Solution :

The correct answer is **option 1**

Understanding

The mirror image of the given figure along the mirror is shown below:

Note: Since the mirror is placed vertically beside the question figure, the image will be formed by inverting the question figure horizontally about the mirror.

That means the left side of the figure will become the right side and vice versa.

Hence, option 1 is correct.

Question 74 :

Select the figure in which the given figure is embedded.

Difficulty : Moderate

Average Time : 75 Seconds

Options :

- 1.
- 2.
- 3.
- 4.

Solution :

The correct answer is **Option 1**.

Understanding

From the figure, we see if we draw the lines as shown, we will be able to get the hidden figure as given in the question.

Question 75 :

Select the combination of letters that when sequentially placed in the gaps of the given letter series will complete the series. ca_bab_ad_ab_ad_ab

Difficulty : Moderate

Average Time : 71 Seconds

Options :

1. dcabc
2. dcacb
3. bcdcb
4. cdbcd

Solution :

The correct answer is **option 2** i.e. **dcacb**

Given: ca_bab_ad_ab_ad_ab

The sequence is – cadbab

The complete series is as follows: cadbab/cadbab/cadbab

Hence, dcacb will be in the blank spaces.

Question 76 :

A circle touches the side PQ of a $\triangle APQ$ at the point R and sides AP and AQ produced at the points B and C, respectively. If the perimeter of $\triangle APQ = 30$ cm, then the length of AB is?

Difficulty : Moderate

Average Time : 47 Seconds

Options :

1. 12 cm
2. 15 cm
3. 10 cm
4. 20 cm

Solution :

Correct Answer is **option 2** i.e. **15 cm**

Concept	Understanding	Application
Two tangents from same external point are of same length.	<p>In the figure:</p> $AB = AC$ And $PB = PR, RQ = QC$	<p>Given perimeter of triangle APQ = 30 cm</p> $AP + PQ + QA = 30$ $AP + PR + RQ + QA = 30$ $AP + PB + QC + QA = 30$ $AB + AC = 30$ Since $AB = AC$ $AB = 30/2 = 15 \text{ cm}$

Question 77 :

In PQR, QT PR and S is a point on QR such that $\angle PSQ = p^\circ$. If $\angle TQR = 46^\circ$ and $\angle SPR = 32^\circ$, then the value of p is?

Difficulty : Moderate

Average Time : 178 Seconds

Options :

1. 72°
2. 82°
3. 76°
4. 78°

Solution :

Correct Answer is **option 3** i.e. 76°

Concept	Understanding	Application	Fair calculation
Sum of angles of a triangle = 180 Vertically opposite angles are always equal.	Given PSQ = p TQR = 46° RPS = 32° PTN = 90° Suppose PS and QT intersect each other at N.	In triangle PNT: PNT = 180 – 90 – 32 = 58° Since PNT and QNS are Vertically opposite angles; QNS = PNT = 58° Now, In triangle QNS: p = 180 – 46 – 58 = 76°	180 – 90 – 32 = 90 – 32 = 58 180 – 46 – 58 = 180 – 104 = 76

Question 78 :

In ADC, E and B are the points on the sides AD and AC respectively such that ABE = ADC. If AE = 6 cm, BC = 2 cm, BE = 3 cm and CD = 5 cm, then (AB + DE) is equal to:

Difficulty : Moderate

Average Time : 268 Seconds

Options :

1. 46/3 cm
2. 14 cm
3. 16 cm

49/3 cm

Solution :

Correct Answer is **option 1** i.e. **46/3 cm**

If all three angles of 2 triangles are equal, then these two triangles are similar triangles.

Given $\angle ABE = \angle ADC$

$AE = 6$, $BC = 2$, $EB = 3$ and $DC = 5$ cm

$[AB + DE] = ?$

In triangles ADC and ABE:

Since $\angle ABE = \angle ADC$

$\angle A$ is common in both

3rd angle will also be equal

Hence, triangles ADC and ABE are similar triangles.

Hence,

$$AE/AC = BE/DC$$

$$6/AC = 3/5$$

$$AC = 10$$

Now,

$$AB = AC - BC = 10 - 2 = 8 \text{ cm}$$

Similarly,

$$AB/AD = BE/DC$$

$$8/AD = 3/5$$

$$AD = 40/3$$

Now,

$$DE = AD - BE = 40/3 - 6 = 22/3 \text{ cm}$$

Hence,

$$[AB + DE] = 8 + 22/3 = 46/3 \text{ cm}$$

â€‹â€‹â€‹â€‹

Question 79 :

If $4x^2 - 6x + 1 = 0$, then the value of $8x^3 + 1/(8x^3)$ is?

Difficulty : Moderate

Average Time : 194 Seconds

Options :

1. 11

2. 13

3. 36

4. 18

Solution :

Correct Answer is **option 4** i.e. **18**

Concept	Understanding	Application
---------	---------------	-------------

If $(a + 1/a) = x$
 $(a^3 + 1/a^3) = x^3 - 3x$

Given
 $4x^2 - 6x + 1 = 0$

$$4x^2 - 6x + 1 = 0$$

$$4x^2 + 1 = 6x$$

Divide by $2x$:

$$2x + 1/2x = 3$$

Taking cube both sides:

$$8x^3 + 1/8x^3 + 3(2x + 1/2x) = 27$$

$$8x^3 + 1/8x^3 + 3 \times 3 = 27$$

$$8x^3 + 1/8x^3 = 27 - 9 = 18$$

Question 80 :

Let O be the centre of a circle and AC be its diameter. BD is a chord intersecting AC at E. Point A is joined to B and D. If $\angle BOC = 50^\circ$ and $\angle AOD = 110^\circ$, then $\angle BEC = ?$

Difficulty : Moderate

Average Time : 176 Seconds

Options :

1. 70°
2. 80°
3. 55°
4. 90°

Solution :

Correct Answer is **option 2** i.e. 80°

Concept	Understanding	Application
Angle subtended by a chord of a circle at centre is double the angle subtended by same chord at circumference of the circle.	Given $BOC = 50^\circ$, $AOD = 110^\circ$	From the figure: $BAC = BOC/2 = 25^\circ$ Similarly, $ABD = AOD/2 = 55^\circ$ Now in triangle ABE: $AEB = 180 - 25 - 55 = 100^\circ$ Hence, $BEC = 180 - 100 = 80^\circ$

Question 81 :

In a ABC, right angled at B, $AB = 7$ cm and $(AC - BC) = 1$ cm. The value of $(\sec C + \cot A)$ is?

Difficulty : Moderate

Average Time : 181 Seconds

Options :

1. $3/4$
2. $4/3$
3. $19/24$
4. 1

Solution :

Correct Answer is **option 2** i.e. $4/3$

Concept	Understanding	Application
In triangle ABC: $\sec C = AC/BC$ $\cot A = AB/BC$	Given $AB = 7$ and $(AC - BC) = 1$ Let $BC = x$ $AC = x + 1$	Since ABC is the right-angle triangle at B: $AC^2 = AB^2 + BC^2$ $(x + 1)^2 = x^2 + 7^2$ $x^2 + 1 + 2x = x^2 + 49$ $2x = 48$ $x = 24$ Hence, $BC = 24$ and $AC = 25$ Now in triangle ABC: $(\sec C + \cot A)$ $= 25/24 + 7/24$ $= 4/3$

Question 82 :

The marked price of an article is Rs. 550. A shopkeeper allows a discount of 20% and still gets a profit of 10%. If he sells it for Rs. 470, his profit percent will be?

Difficulty : Moderate

Average Time : 204 Seconds

Options :

1. 16.8
2. 17.5
3. 18
4. 16

Solution :

The correct answer is **option 2** i.e. **17.5**

Concept	Understanding	Application
For x% discount: $SP = MP \times [100 - x]/100$ For y% profit: $CP = SP/[100 + x]/100$	MP = Rs. 550 Discount = 20% Profit = 10%	After 20% discount: $SP = 550 \times 0.8 = 440$ Since he gets 10% profit: $CP = 440/1.1 = 400$ If SP = 470 $Profit \% = [(470 - 400)/400] \times 100$ $= 70/4$ $= 17.5\%$

Question 83 :

If $x + y + z = 0$, then the value of $(x^2 + y^2 + z^2) \div (z^2 - xy)$ is:

Difficulty : Moderate

Average Time : 102 Seconds

Options :

1. -1
2. -2
3. 2
4. 1

Solution :

Correct Answer is **option 3** i.e. **2**

Concept	Understanding	Application

$x^2 + y^2 = (x + y)^2 - 2xy$	Given: $(x + y + z) = 0$ Or $(x + y) = -z$	$(x^2 + y^2 + z^2) \div (z^2 - xy)$ $((x + y)^2 - 2xy + z^2) \div (z^2 - xy)$ Put $(x + y) = -z$ $(z^2 - 2xy + z^2) \div (z^2 - xy)$ $2(z^2 - xy) \div (z^2 - xy)$ 2
-------------------------------	---	---

Question 84 :

If an 11-digit number $5y5884805x6$ is divisible by 72, then the value of (xy) is?

Difficulty : Moderate

Average Time : 169 Seconds

Options :

1. 7
2. 3
3. 27
4. 7

Solution :

Correct Answer is **option 4** i.e. 7

Concept	Understanding	Application	Fair calculation
---------	---------------	-------------	------------------

<p>Divisibility rule: If a number is divisible by 72 it must be divisible by 8 and 9</p> <p>Divisibility by 8: Last 3 digits must be divisible by 8.</p> <p>Divisibility by 9: Sum of all digits should be divisible by 9</p>	<p>Eight-digit no.: 5y5884805x6 is divisible by 72</p>	<p>Last 3 digits 5x6 must be divisible by 8: Hence, $x = 7$</p> <p>Divisibility by 9: [5 + y + 5 + 8 + 8 + 4 + 8 + 0 + 5 + 7 + 6] should be Divisible by 9. [56 + y] should be Divisible by 9. Hence, $y = 7$ Hence, $xy = 7 \times 7 = 7$</p>	<p>49 = 7</p>
---	--	---	---------------

Question 85 :

A sum of Rs. 12,000 amounts to Rs. 20,736 in 3 years at a certain rate percent per annum, interest compounded annually. What will amount of the same sum to in 2 years at the same rate on compound interest?

Difficulty : Moderate

Average Time : 219 Seconds

Options :

1. Rs. 17,280
2. Rs. 14,520
3. Rs. 17,820
4. Rs. 15,640

Solution :

Correct Answer is **option 1** i.e. **Rs. 17280**

Concept	Understanding	Application	Fair calculation
---------	---------------	-------------	------------------

For CI: $A = P[1 + r/100]^t$	Given $A = 20736, P = 12000$ $t = 3$ we can get rate of interest with this data	$20736 = 12000[1 + r/100]^3$ $[1 + r/100]^3 = 1728/1000$ $1 + r/100 = 12/10$ $r = 20\%$ Now for 2 years: $A = 12000[1 + 20/100]^2$ $12000 \times 36/25$ 17280	$20736/12000$ Divide both by 12: $= 1728/1000$ $12000 \times 36/25$ $= 480 \times 36$ $= 17280$
---------------------------------	--	--	--

Question 86 :

The average of twelve numbers is 55.5. The average of the first four numbers is 53.4 and that of the next four numbers is 54.6. The 10th number is greater than the 9th number by 3 but lesser than the 11th and 12th numbers by 2 and 3, respectively. What is the average of the 10th and the 12th numbers?

Difficulty : Moderate

Average Time : 227 Seconds

Options :

- 59.5
- 58
- 56
- 57.5

Solution :

The correct answer is **option 1** i.e. **59.5**

Understanding	Application
---------------	-------------

Average of 12 numbers = 55.5

Average of first 4 numbers = 53.4

Average of next 4 numbers = 54.6

Suppose 10th number is 'a'

9th number = $a - 3$

11th number = $a + 2$

12th number = $a + 3$

Sum of 12 numbers = $55.5 \times 12 = 666$

Sum of first 4 numbers = $53.4 \times 4 = 213.6$

Sum of next 4 numbers = $54.6 \times 4 = 218.4$

Hence,

Sum of 9th, 10th, 11th and 12th number = $666 - 213.6 - 218.4 = 234$

Now,

$a + a - 3 + a + 2 + a + 3 = 234$

$4a = 232$

$a = 58$

Hence,

10th number = 58

12th number = $58 + 3 = 61$

Average of 10th and 12th number = $(58 + 61)/2 = 59.5$

Question 87 :

The income of A is 40% more than that of B. If A got a 25% rise in his income and B got a 40% rise in his income, then the percentage increase in the combined incomes of A and B is?

Difficulty : Moderate

Average Time : 119 Seconds

Options :

1. 24.5
2. 31.25
3. 34.5

**28.25****Solution :**

The correct answer is **Option 2** i.e **31.25**

Suppose

Income of B = 100

Income of A = $100 \times 1.40 = 140$

Combined income = $100 + 140 = 240$

After raise of 25%:

Income of A = $140 \times 1.25 = 175$

After raise of 40%:

Income of B = $100 \times 1.4 = 140$

New combined income = $175 + 140 = 315$

Hence,

Required % = $[(315 - 240)/240] \times 100 = 750/24$

= **31.25%**

Question 88 :

A bought an article for Rs. 5,400 and sold it at a loss of 30%. With this amount, he bought another article and sold it at a gain of 60%. What was his overall percentage gain or percentage loss?

Difficulty : Moderate

Average Time : 51 Seconds

Options :

1. Gain, 12%
2. Gain, 1.2%
3. Loss, 1.2%
4. Loss, 12%

Solution :

The correct answer is **option 1** i.e. **“Gain, 12%”**

Concept	Understanding	Application
Here, the percentage profit/loss will not depend upon the Cost price. So, we can take value for CP and to avoid calculation, we will take CP = 100	Suppose CP = 100 Loss = 30%	SP after 30% loss = $100 \times 0.7 = 70$ With this Rs. 70, he brought another article which he sold at 60% profit: SP for another article = $70 \times 1.6 = 112$ Hence, Overall gain = $[(112 - 100)/100] \times 100$ = $1200/100$ = 12%

Question 89 :

Find the value of

Difficulty : Moderate

Average Time : 104 Seconds

Options :

1. $3\frac{1}{2}$
2. $1\frac{2}{3}$
3. $4\frac{5}{6}$
4. $1\frac{5}{6}$

Solution :

Correct Answer is **option 1** i.e. $3\frac{1}{2}$

Application

$$\begin{aligned} & \frac{3}{4} \times 2\frac{2}{3} \div \frac{5}{9} \text{ of } 1\frac{1}{5} + \frac{2}{23} \times 3\frac{5}{6} \div \frac{2}{7} \text{ of } 2\frac{1}{3} \\ \Rightarrow & \frac{3}{4} \times \frac{8}{3} \div \frac{5}{9} \text{ of } \frac{6}{5} + \frac{2}{23} \times \frac{23}{6} \div \frac{2}{7} \text{ of } \frac{7}{3} \\ \Rightarrow & \frac{3}{4} \times \frac{8}{3} \div \frac{2}{3} + \frac{2}{23} \times \frac{23}{6} \div \frac{2}{3} \\ \Rightarrow & \frac{3}{4} \times 4 + \frac{2}{23} \times \frac{23}{4} \\ \Rightarrow & 3 + 1/2 = 3\frac{1}{2} \end{aligned}$$

Question 90 :

if , then k = ?

Difficulty : Moderate

Average Time : 91 Seconds

Options :

1. cos
2. sec
3. sin
4. cosec

Solution :Correct Answer is **option 2** i.e. **sec**

Concept	Application
---------	-------------

Componendo and dividendo

Tanx = Sinx/Cosx

$$\begin{aligned} \Rightarrow \frac{\tan\theta}{\sin\theta} &= k/1 \\ \Rightarrow \frac{\sin\theta}{\cos\theta} \times \frac{1}{\sin\theta} &= k \\ \Rightarrow k &= \sec\theta \end{aligned}$$

Applying Componendo and dividendo:

$$\begin{aligned} \Rightarrow \frac{\tan\theta}{\sin\theta} &= k/1 \\ \Rightarrow \frac{\sin\theta}{\cos\theta} \times \frac{1}{\sin\theta} &= k \\ \Rightarrow k &= \sec\theta \end{aligned}$$

$$\begin{aligned} \Rightarrow \frac{\tan\theta}{\sin\theta} &= k/1 \\ \Rightarrow \frac{\sin\theta}{\cos\theta} \times \frac{1}{\sin\theta} &= k \\ \Rightarrow k &= \sec\theta \end{aligned}$$

Question 91 :

The ratio of the efficiencies of A, B and C, to do a certain work is 7 : 3 : 5. Working together, they can complete the work in 21 days. A and C worked together for 15 days. The remaining work will be completed by B alone in?

Difficulty : Moderate

Average Time : 114 Seconds

Options :

1. 60
2. 54
3. 45
4. 63

Solution :

The correct answer is **option 3** i.e. **45 days**

Understanding	Application
---------------	-------------

Given

Ratio of efficiencies of A, B and C = 7 : 3 : 5

Suppose the efficiencies are 7x, 3x and 5x respectively.

Since together they can complete the work in 21 days:

Hence,

Total work = $(7x + 3x + 5x) \times 21$

= $15x \times 21$

= $315x$

A and C worked together for 15 days:

Work done = $(7x + 5x) \times 15$

= $12x \times 15 = 180x$

Hence, remaining work = $315x - 180x = 135x$

Since B does the remaining work alone:

Time taken by B = $135x/3x = 45$ day

Question 92 :

What is the ratio of the mean proportional between 4.8 and 10.8 and the third proportional to 0.4 and 2.4?

Difficulty : Moderate

Average Time : 93 Seconds

Options :

1. 1 : 2
2. 2 : 1
3. 3 : 2
4. 2 : 3

Solution :

Correct Answer is **option 1** i.e. **1 : 2**

Concept

Application

Mean proportional of x and y
 $= (x \times y)$

Third proportional of x and y
 $= y^2/x$

Mean proportional of 4.8 and
10.8

$$= (10.8 \times 4.8)$$

$$= (9 \times 1.2 \times 1.2 \times 4)$$

$$= (1.2 \times 1.2 \times 36)$$

$$= (1.2 \times 6)^2 = (7.2)^2 = 7.2$$

And

Third proportional of 0.4 and 2.4

$$= 2.4^2/0.4 = 14.4$$

$$\text{Hence, ratio} = 7.2 : 14.4 = 1 : 2$$

Question 93 :

if then what is value of ?

Difficulty : Moderate

Average Time : 141 Seconds

Options :

1. 1

2. 3

3. 9

4. 6

Solution :

Correct Answer is **option 2** i.e. 3

Application

Given

$$a^2 + b^2 + c^2 + 27 = 6(a + b + c)$$

$$\Rightarrow a^2 - 6a + 9 + b^2 - 6b + 9 + c^2 - 6c + 9 = 0$$

$$\Rightarrow (a - 3)^2 + (b - 3)^2 + (c - 3)^2 = 0$$

$$\Rightarrow a = 3, b = 3 \text{ and } c = 3$$

Hence,

$$\sqrt[3]{(a^3 + b^3 - c^3)}$$

$$= \sqrt[3]{(3^3 + 3^3 - 3^3)}$$

$$= 3$$

Question 94 :

The speed of train A is 25 km/h more than the speed of train B. A takes 4 hours less time to travel a distance of 300 km than what train B takes to travel 250 km. What is the speed (in km/h) of A?

Difficulty : Moderate

Average Time : 74 Seconds

Options :

1. 50

2. 65

3. 60

4. 55

Solution :

Correct Answer is **option 1** i.e. **50**

Understanding

Application

Suppose speed of B =
x

Speed of A = (x + 25)

According to question:

$$250/x - 300/(x + 25) = 4$$

Now we can check with options
by placing the value of x;

Option 1: (x + 25) = 50

$$250/25 - 300/50 = 10 - 6$$

$$= 4 = 4 \text{ (Satisfies the above equation)}$$

Hence, speed of A = 50 km/hr

Question 95 :

The curved surface area and the volume of a cylinder is 264 cm² and 924 cm³, respectively. What is the ratio of its radius to its height? (Take $\pi = 22/7$)

Difficulty : Moderate**Average Time : 128 Seconds****Options :**

1. 4 : 3
2. 7 : 6
3. 3 : 2
4. 5 : 4

Solution :

The correct Answer is **Option 2** i.e 7 : 6

Concept	Understanding	Application
---------	---------------	-------------

<p>Cylinder: Curved surface area = $2rh$ Volume = r^2h</p>	<p>Given: $2rh = 264 \dots(1)$ $r^2h = 924 \dots(2)$</p>	<p>Dividing 1 by 2: $r/2 = 924/264$ $r/2 = 7/2$ $r = 7$ From 1: $2 \times 22/7 \times 7 \times h = 264$ $h = 264/44$ $h = 6 \text{ cm}$ Hence, $r : h = 7 : 6$</p>
--	--	---

Question 96 :

If $3\sin^2\theta = 2\cos^2\theta$, $0^\circ < \theta < 90^\circ$, then the value of $(\tan^2\theta + \sec^2\theta - \operatorname{cosec}^2\theta)$ is?

Difficulty : Moderate

Average Time : 66 Seconds

Options :

1. -2
2. -7/3
3. 2
4. 7/3

Solution :

Correct Answer is **option 2** i.e. **-7/3**

Concept	Understanding	Application	Fair calculation
---------	---------------	-------------	------------------

<p>Value putting method.</p>	<p>Given</p> $3\sin = 2\cos^2$ <p>We need to evaluate what value of will satisfy this where $0 < \theta < 90$</p>	<p>Putting $\theta = 30$</p> $3 \times \frac{1}{2} = 2 \times \left(\frac{3}{2}\right)^2$ $\frac{3}{2} = \frac{3}{2}$ <p>Satisfies the equation.</p> <p>Hence, $\theta = 30$</p> <p>Now,</p> $(\tan^2 + \sec^2 - \operatorname{cosec}^2)$ $(\tan^2 30 + \sec^2 30 - \operatorname{cosec}^2 30)$ $\left[\left(\frac{1}{3}\right)^2 + \left(\frac{2}{3}\right)^2 - (2)^2\right]$ $-\frac{7}{3}$	$\left[\left(\frac{1}{3}\right)^2 + \left(\frac{2}{3}\right)^2 - (2)^2\right]$ $\left[\frac{1}{3} + \frac{4}{3} - 4\right]$ $\frac{5}{3} - 4$ $-\frac{7}{3}$
------------------------------	--	---	--

Comprehension :

Direction: The table shows the production of different types of cars (in thousands). Cars/Year

	2012	2013	2014	2015	2016
A	46	53	56	58	67
B	50	65	67	66	72
C	43	54	55	47	51
D	47	52	61	65	74
E	48	58	63	64	67

Question 97 :

The total production of type B cars in 2015 and type D cars 2016 is what percent less than the total production of type E cars in five years?

Difficulty : Moderate

Average Time : 266 Seconds

Options :

1. $50\frac{1}{3}$
2. $46\frac{2}{3}$
3. $53\frac{1}{3}$
4. $52\frac{2}{3}$

Solution :

The correct answer is **option 3** i.e. $53\frac{1}{3}$

Application

Total production of type B cars in 2015 and type D cars in 2016 = $66 + 74 = 140$

Total production of type E cars in all 5 years = $48 + 58 + 63 + 64 + 67 = 300$

Hence,

$$\begin{aligned} \text{Required percentage} &= [(300 - 140)/300] \times 100 \\ &= 160/3 = 53\frac{1}{3} \% \end{aligned}$$

Comprehension :

Direction: The table shows the production of different types of cars (in thousands). Cars/Year 2012 2013 2014 2015 2016
A 46 53 56 58 67 B 50 65 67 66 72 C 43 54 55 47 51 D 47 52 61 65 74 E 48 58 63 64 67

Question 98 :

The average production of type A cars during the five years is what percent of the total production of type C cars during the five years?

Difficulty : Moderate

Average Time : 121 Seconds

Options :

1. 22.4
2. 21.8
3. 20.6
4. 18.7

Solution :

The correct answer is **option 1** i.e. **22.4**

Application

Average production of type A cars in all 5 years
 $= [46 + 53 + 56 + 58 + 67]/5 = 280/5 = 56$

Total production of type C cars in all 5 years =
 $43 + 54 + 55 + 47 + 51 = 250$

Hence,

Required percentage = $[56/250] \times 100 = 112/5 =$
22.4%

Comprehension :

Direction: The table shows the production of different types of cars (in thousands). Cars/Year 2012 2013 2014 2015 2016
A 46 53 56 58 67 B 50 65 67 66 72 C 43 54 55 47 51 D 47 52 61 65 74 E 48 58 63 64 67

Question 99 :

What is the ratio of the total production of type C and D cars in 2012 to the total production of type A cars in 2014 and type E cars in 2015?

Difficulty : Moderate

Average Time : 69 Seconds

Options :

1. 5 : 6
2. 9 : 11
3. 3 : 4
4. 11 : 12

Solution :

The correct answer is **option 3** i.e. **3 : 4**

Application

Total production of type C and type D cars in 2012
= $[43 + 47] = 90$

Total production of type A cars in 2014 and type E cars in 2015 = $56 + 64 = 120$

Hence,

Required ratio = $90 : 120 = 3 : 4$

Comprehension :

Direction: The table shows the production of different types of cars (in thousands). Cars/Year 2012 2013 2014 2015 2016
A 46 53 56 58 67 B 50 65 67 66 72 C 43 54 55 47 51 D 47 52 61 65 74 E 48 58 63 64 67

Question 100 :

If the data related to the production of type B cars is represented by a pie chart, then the central angle of the sector representing the production of cars in 2016 is?

Difficulty : Moderate**Average Time : 72 Seconds****Options :**

1. 73°
2. 75°
3. 81°
4. 56°

Solution :

The correct answer is **option 3** i.e. 81°

Concept	Application
---------	-------------

Pie chart represents 360° angle

The central angle of the sector representing of Type B cars in 2016 will be

$$= [72/(50 + 65 + 67 + 66 + 72)] \times 360$$

$$= [72/320] \times 360$$

$$= 72 \times 8/9$$

$$= 81^\circ$$

Ssc Cgl Tier I Previous Year Question Paper Analysis

The analysis of Ssc Cgl Tier I Previous Year Question Paper held on 2019-06-10 in the Morning exam is as follows:

1. 100 questions were moderate.
2. The safe score is 140 marks.
3. 25 questions were asked from English Language, 25 questions were asked from General Awareness, 25 questions were asked from Logical Reasoning and 25 questions were asked from Quantitative Aptitude
4. 45 questions should have been skipped if you were short of time.

Ssc Cgl Tier I Previous Year Question Paper Topic Wise Weightage

English Language

1. Comprehensive - 25

General Awareness

1. Polity - 2
2. Economics - 1
3. Geography - 1
4. GK Misc - 21

Logical Reasoning

- Coding Decoding - 3
- 2. Arrangement And Pattern - 2
- 3. Analogy - 6
- 4. Classification - 2
- 5. Missing Characters - 1
- 6. Blood Relations - 1
- 7. Syllogism - 1
- 8. Venn Diagrams - 1
- 9. Figure Based - 5
- 10. Mirrors And Water Reflection - 1
- 11. Mathematical Reasoning - 2

Quantitative Aptitude

- 1. Average - 3
- 2. Data Interpretation - 4
- 3. Time And Work - 1
- 4. Time Speed And Distance - 1
- 5. Interest - 1
- 6. Ratios And Proportion - 1
- 7. Geometry - 4
- 8. Trigonometry - 3
- 9. Mensuration - 1
- 10. Algebra - 4
- 11. Number System - 1
- 12. Profit And Loss - 1

Ssc Cgl Tier I Previous Year Question Paper Tips and Tricks

1. Try to solve Ssc Cgl Tier I Previous Year Question Paper without taking any help from the solutions.
2. Ssc Cgl Tier I Previous Year Question Paper require proper usage of concept so firstly read the question thoroughly and then use the right concept.
3. In case you're not able to solve the question in less than 30 seconds in the exam then you should skip the question and move to the next question.
