

## Statistics Questions Overview

Statistics Questions have a good weightage in the Ssc Cgl Exam and the type of question asked in Ssc Cgl exam is similar to the question mentioned below. It has been solved and explained by KD Live Experts under the guidance of Neetu Mam and they have tried to elaborate the concept used in Statistics Questions.

## Question On Statistics

If the standard deviation of  $x$ ,  $y$ , and  $z$  is  $P$  then, what will be the standard deviation of  $x + 8$ ,  $y + 8$ , and  $z + 8$ ?

Difficulty : Moderate

Average Time : 32 Seconds

## Statistics Questions Options

1.  $P$
2.  $2P$
3.  $P/2$
4.  $3P$

## Statistics Questions Solution

The correct answer is **option 1** i.e.  $P$ .

**Given :**

The standard deviation of  $x$ ,  $y$ , and  $z$  is  $P$

**Concept used :**

If the standard deviation of any set of numbers is  $A$  and the same mathematical operation is done with every term, then the standard deviation remains same

**Calculations :**

The standard deviation of  $x$ ,  $y$ ,  $z = P$

Adding 8 to each term we get

$$x + 8, y + 8, z + 8$$

The same mathematical operation is done with every term

Hence, the standard deviation remains the same that is P

## Statistics Questions Tips and Tricks

1. Try to solve Statistics Questions without taking any help from the solutions.
2. Statistics Questions require proper usage of concept so firstly read the question thoroughly and then use the right concept.
3. In case you're not able to solve the question in less than 30 seconds in the exam then you should skip the question and move to the next question.

## Daily Current Affairs

KD Live is providing Current Affairs on a daily basis for SSC and a current affairs quiz too for the practice. For the Current Affairs please [Click Here](#) and for the current affairs quiz please [Click Here](#).

## KD Live Free Offerings

KD Live is Offering Every Information and Study Material required for the self study. Please click on the following links for accessing those.
